1. Background

National Women in Engineering Day was launched for the first time in the UK on 23 June 2014 by the Women’s Engineering Society to celebrate its 95th anniversary. Since that launch in 2014 the day has grown enormously over the three subsequent years to the point where it received UNESCO patronage in 2016 and is to be relaunched as International Women in Engineering Day in 2017. This document gives a flavour of the size and scope of the day in 2016.

2016 - The 3rd annual National Women in Engineering Day campaign (#NWED2016) took place on Thursday 23 June 2016. Despite the date coinciding with the EU Referendum in the UK, it was nevertheless another huge success with record levels of engagement and impact. Schools, colleges, universities, industry bodies and individual engineers in the UK and beyond united in the name of Diversity and Inclusion to celebrate the great achievements of women engineers and encourage more girls and women to consider engineering as a career. The Women’s Engineering Society again coordinated communications and many resources for the day, but its success was, as ever, down to the engagement and support of the organisers and participants on the day, boosted by the full benefit of UNESCO patronage.

For the first time in 2016 a subtheme for the day was introduced, and this year it was ‘Raising Profiles’ with the aim of raising the profiles of our women engineers. It was under this that an inaugural list of the Top 50 Women in Engineering in the UK was launched, in collaboration with the Daily Telegraph and partners The IET, Scottish Power, Jaguar Land Rover, Prospect Union, Mars Petcare, SEMTA and BAE Systems.

2016 NWED Sponsors: National Women in Engineering Day was financially supported in 2016 by Cummins, Prospects College of Advanced Technology, Yorkshire Water, TWI, the National Structural Integrity Research Centre (NSIRC), Sheffield Hallam University, the University of Surrey, Elsevier, the Royal Academy of Engineering, FM Global, the Institution of Engineering and Technology, Building Engineering Services Association (BESA), WILEY, the Institute of

Highlights of 2016

- 200 separate events held on the day, not including individual school events
- Over 350 school events across the UK
- A handful of International NWED events were again recorded this year, prompting us to launch INWED - International Women in Engineering Day - in 2017, again with the support of UNESCO
- 1500 downloads of the Resource Pack from the NWED website www.nwed.org.uk
- Over 400 resource packs sent out by post
- Over 100 requests for additional classroom resources to support school outreach work
- Reached over 1 million people on social media via a 'Thunderclap' campaign on twitter
- The official hashtag #nwed2016 receiving over 15,000 posts on the day, which saw the hashtag trending for around 8 hours on Twitter, second only to EU Referendum related posts
- On the day, the hashtag #nwed2016 received 1,550,728 impressions #raisingprofiles received 109,325 impressions
- Our official website www.nwed.org.uk received nearly 42,000 unique visitors and over 35,000 page views on the day
- The official T-shirt store sold 324 units
- Our NWED video 'Pushing Boundaries' received an additional 400 plays on the day bringing the total views to 5,500, so was seen by many times this number of students as it was shown in schools as the campaign video
- National Women in Engineering Day was reported in over 150 national and local newspapers and online articles in the UK and internationally
- BBC and Sky News covered the day in their evening news slots, and BBC Woman’s Hour also featured women in engineering, along with a number of national and local radio shows
- We are unable to give exact numbers, but we estimate that hundreds of thousands of girls, their parents and teachers were reached on the day and during the week by this campaign
National Women in Engineering Day continues to celebrate our women engineers and inspire the next generation. More than just a one day event, this campaign has the power to change lives.

A dedicated [website](www.nwed.org.uk) and [Twitter account](@nwed1919) were used to engage with the public and provide information, inspiration and ideas relating to NWED. Further details about the impact of the day, some of the events that took place, and the publicity that the day generated can be seen below.

"National Women in Engineering Day 2016 #NWED2016: Together we changed perceptions and inspired more girls to consider engineering as a career"

**Sponsorship 2016**

As a non-profit charity, we rely on financial sponsorship to coordinate NWED and in 2016 NWED was generously sponsored by Cummins, Prospects College of Advanced Technology, Yorkshire Water, TWI, the National Structural Integrity Research Centre (NSIRC), Sheffield Hallam University, the University of Surrey, Elsevier, the Royal Academy of Engineering, FM Global, the Institution of Engineering and Technology, Building Engineering Services Association (BESA), WILEY, the Institute of Acoustics and the Institute of Refrigeration. This sponsorship allowed us to run a bigger campaign than we had done previously and employ a part time NWED coordinator.

Thank you to all of our sponsors for their generous support.

Details of how to support INWED in 2017 can be found on the website at [www.nwed.org.uk](http://www.nwed.org.uk)
Social Media Campaign

Social media is the tool which allows us to unite the events that occur simultaneously on National Women in Engineering Day and allow the supporters and participants of the day to interact with one another and draw on a collective energy.

The twitter hashtag #NWED2016 was promoted to be used on the day and it received over 15,000 posts and 1,550,728 impressions on the day, which saw the hashtag trending for around 8 hours on Twitter, second only to EU Referendum related posts. In addition, the hashtag #raisingprofiles received 109,325 impressions.

Our official website www.nwed.org.uk received nearly 42,000 unique visitors and over 35,000 page views on the day.

In 2016 we again had a successful Thunderclap campaign on Twitter which reached over 1,200,000 with the following tweet:

“It’s 23 June - let’s make #NWED2016 even bigger this year. Join us today to celebrate all women in engineering”

In addition, NWED supporters were sent regular email communications in newsletter dedicated to NWED news in the build up to the day and afterwards.

Appendix 1 on page 18 of this report shows some of the twitter activity from the day.

Media Gallery – Women in Engineering Images

Many photographs were posted through twitter, and a campaign which ran as part of NWED2016 to increase the number of real photographs of women in engineering saw many people post images of themselves at work to form the basis of a media gallery that can be used by the press when reporting engineering. Some of the images can be seen in Appendix 1, but the gallery of photos has been removed from this report due to its size. This can be seen as a separate file on the NWED website.
NWED Competitions

In 2016 we held two National Competitions - one for Primary School aged Children called Draw an Engineer for NWED, and one for Secondary Schools called Engineering HerStories.

Draw an Engineer for NWED

This competition received hundreds of entries from Primary aged children and the poster and winning entries can be seen below. Winners were Muad Moorcroft Towers, Izzy Faulkner, Daisy Wagg and Daisy O’Dyer.

The prizes for these winners were two books for each of the winners: Sky Pods in Phnom Penh by Dr Bryony Mathew, and My Mummy is an Engineer by Kerrine Bryan and Jason Bryan.
**Engineering Herstories**

Sponsored by Northrop Grumman, this competition aimed to encourage students to look back in history at the pioneering women engineers and come up with a way of telling their stories. The prize for this was a VIP visit to the 2016 Royal International Air Tattoo in Gloucestershire hosted by Northrop Grumman, and was won by two Year 9 students - Jasneet Dhaliwal and Esther Pinches from Howell’s School, Llandaff with their entry telling the story through Powerpoint presentation of Claudia Parsons.

The slides from the winning entry can be seen below.
An inaugural list of the top 50 Women in Engineering was be published in the Daily Telegraph for the first time on 23 June 2016 to coincide with National Women in Engineering Day, to coincide with the Raising Profiles subtheme of the day.

See the list as it appeared in The Telegraph here.

The list (given below) compiled by the Daily Telegraph in collaboration with the Women’s Engineering Society features the UK’s top influential female engineers chosen from almost 900 nominations.

Dawn Bonfield, Chief Executive of the Women’s Engineering Society who is also the founder of National Women in Engineering Day commented: ‘We had a very high response to this campaign and were hugely impressed with the entries. This list of amazing role models is a great way of raising the profile of our talented women engineers and making them more visible both within the industry and to the next generation.”

The list includes many familiar senior engineers’ names such as Dame Ann Dowling OM DBE, President of the Royal Academy of Engineering, Naomi Climer, President of the Institution of Engineering and Technology, and Dame Judith Hackitt DBE, former Chair of the Health and Safety Executive and now Chair of EEF the Manufacturers’ Organisation. It also, however, includes some names that may come as a surprise, including Steph McGovern from BBC Breakfast, a former engineer who continues to do a huge amount to encourage the next generation into engineering, and Chi Onwurah MP – the only female engineer in the House of Commons.

The candidates on the list represent the broad range of engineering roles available including industrialists from the traditional built environment, energy and transport sectors, but also including names from Hilton Worldwide, the Merlin entertainment group and many representatives from academia. The list also includes women who are no longer working as practicing engineers but are nevertheless still influential in the sector.

Judge Allan Cook CBE, Chairman of Atkins commented: “I was really impressed with the calibre, quality and quantity of the submissions. Reading through the entries it was incredibly exciting to see the breadth of talent we have in our engineering community.”

Brief biographies of each one of the 50 engineers on the list will be printed in the Telegraph on 23 June and this will be accompanied by a breakfast launch taking place at the Institution of Engineering and Technology, Savoy Place, London WC2R 0BL to which all of the engineers listed and many of the other nominated candidates have been invited.

Sponsors of the campaign, in addition to WES and the Daily Telegraph, were Scottish Power, Mars Petcare, Prospect Union, Jaguar Land Rover, SEMTA, the Institution of Engineering and Technology (IET) and BAE Systems.

The LIST, 2016, is given below:
- Roma Agrawal CEng, MIstructE, MIET, FRICS  Structural Engineer, Interserve
- Professor Helen Atkinson CBE, FREng  Head of Department of Engineering, University of Leicester
- Danella Bagnall  Chief Product Engineer, Jaguar Land Rover
- Faye Banks FIET, FCMI, FinstLm, CEng, Cmgr  Head of Operations North East, National Grid
- Alison Baptiste CEng, FICE, BEng, MSc, MCIWEM  Director of Strategy and Investment, Flood and Coastal Risk Management, Environment Agency
- Jayne Bryant FREng, CEng, FIET, FWES  Engineering Director Defence Information, BAE Systems
- Muffy Calder OBE, FRSE, FREng  Vice-Principal and Head of College of Science and Engineering, University of Glasgow
- Liv Carroll DIC, CGeol, FGS, FIMMM  Chartered Geologist, Geological Society
- Jacqueline Castle CEng, FIMechE, FRaes  Chief Engineer A330neo Wing, Airbus UK
- Amanda Chessell CBE, FREng  Distinguished Engineer, IBM
- Naomi Climer FREng, CEng, FIET  President, IET, Institution of Engineering and Technology
- Susan Dio  Chief Executive Officer, BP Shipping Limited
- Dr Michèle Dix CBE, CEng, FICE, FCIHT, FCILT  Managing Director, Crossrail 2, Transport for London (TfL)
- Professor Dame Ann Dowling  President of the Royal Academy of Engineering, Professor of Mechanical Engineering, Deputy Vice-Chancellor, University of Cambridge
- Elizabeth Eastaugh  Global Head - Customer Experience, Expedia
- Dawn Elson CEng, FICE, FIMechE, FRaes, FWES  Group Engineering Director, Merlin Entertainments Group
- Jane Garthshore FinstR  Director, Cool Concerns Ltd
- Professor Lynn Gladden CBE, FRGS, FREng  Shell Professor of Chemical Engineering, University of Cambridge
- Dr Paulina Bohdanowicz-Godfrey  Director Energy and Environment, Hilton Worldwide
- Dame Judith Hackitt CBE, FREng Chair, EEF
- Professor Dame Wendy Hall DBE, FRS, FREng  Director, Web Science Institute, University of Southampton
- Eur Ing Louise Hardy CEng, FICE, CMgr, FCMI, FWES  Non Executive Director, Sirius Minerals Plc
- Professor Caroline Hargrove CEng, FIMechE  Technical Director, McLaren Applied Technologies
- Professor Karen Holford FREng, FWES, FLSW, CEng, FIMechE  Pro Vice-Chancellor, Cardiff University
- Ying Hu  Manufacturing Systems Engineer, Rolls Royce Plc
- Dame Sue Ion FREng, FRS  Chair NIRAB, Nuclear Innovation and Research Advisory Board
- Lady Barbara Judge CBE  Chairman Emeritus, UK Atomic Energy Authority
- Baroness Brown of Cambridge DBE, FREng  Vice-Chancellor and Chief Executive, Aston University
- Allie MacAdam FICE, MiChemE  Managing Director, Europe and Africa, Infrastructure, Bechtel
- Dr Cathy McClay  Head of Commercial, Electricity, National Grid
- Steph McGovern  Presenter, BBC Breakfast
- Linda Miller PEng (USA)  Senior Project Manager, Bechtel
- Dervilla Mitchell CBE  Director, Arup
- Heidi Motttram OBE  Chief Executive Officer, Northumbrian Water Group
- Alison Nimmo CBE  Chief Executive, The Crown Estate
- Belinda Oldfield FICE, AMIoW  General Manager, Scottish Water
- Chi Onwurah MP, CEng, FIET, FCGI  MP, UK Government
- Isobel Pollock-Hulf OBE, CEng, Hon DSc, FIMechE, FCGI  Master, Worshipful Company of Engineers
- Dr Haifa Ross  Head of School of Engineering, Solihull College and University Centre
- Helen Samuels  United Utilities
- Dr Angela Seeney FEI, CEng, CEng, CPet Eng  Director Technology, Supply Chain and Decommissioning, Oil & Gas Authority
- Dr Nina Skorupksa CBE, FEI  Chief Executive, Renewable Energy Association
- Jane Simpson  Chief Engineer, Network Rail
- Dana Skelley OBE  Director of Asset Management, Transport for London
- Rachel Skinner CEng, FICE, TPP, MCIHT  Director, Development, WSP Parsons Brinckerhoff
- Dr Debbie Smith OBE, FIFE, CPhys, MIInstP  Managing Director, BRE Global
- Vicky Stewart MIOA, MWED  Associate Acoustic Consultant, Atkins
- Professor Eleanor Stride  Professor of Engineering Science, University of Oxford
- Dr Alison Vincent  Chief Technology Officer, Cisco International Ltd
- Katherine Ward CEng, MICE  Group Head, Offshore Wind, Atkins
T-shirts

Our clothing store, EngiWear, allowed NWED supporters to buy T-shirts for their social media campaigns and use them to pledge their support for women in engineering on NWED 2016. In 2015 we sold 168 T-shirts and in 2016 we sold 324 T-shirts.

Above is the CEO of GSK and some of their female engineers.

In addition to the T-shirts produced by WES, a number of the supporters of the day produced other merchandise including lapel pins, badges, stickers, wrist bands, and cake toppers.

NWED Events across the UK

This year’s NWED events included a huge variety of creative events including networking sessions, activities, talks, panel discussions, photo opportunities, conferences, pledges, quizzes, videos, wikithons, press releases, themed activities, challenges, competitions, parties, film nights, and many more things.

The following list shows some of the events we were notified about, and many more were reported on twitter. Details of these events can be found in Appendix 2 of this report and links can be followed from our website www.nwed.org.uk/nwed-2015.html.

In addition to these events over 350 schools reported some NWED related activity on the day.
• WES NWED Launch - Top 50 Women in Engineering Breakfast Networking event Thursday 23rd of June
• WES: Towards Our Centenary - Thursday 23rd of June
• Female PPE - Does One Size Fit All? in collaboration with WES, WISE, IMechE, Prospect & the TUC London Thursday 23rd of June
• IET, IMechE, ICE, IChemE, RICS and CIWEM National Women in Engineering Day: The Big Discussion Thursday 23rd of June Savoy Place London
• London Bridge Redevelopment Project Thursday 23rd of June
• MWH Global Thursday 23rd of June
• Network Rail Ltd, Euston Station Thursday 23rd of June
• Spirax Sarco
• Whitworth Park School Thursday 23rd of June
• O2 Slough Office Thursday 23rd of June
• POWERful Women Thursday 23rd of June
• University of Salford Thursday 23rd of June
• Stockport Metropolitan Borough Council; 14-19 Services Thursday 23rd of June
• Abbots Hill School Thursday 23rd of June
• Warwick University Thursday 23rd of June
• Matravers Thursday 23rd of June
• SPT Thursday 23rd of June
• Nuvia Limited Thursday 23rd of June
• Farnborough College of Technology Thursday 23rd of June
• Siemens Thursday 23rd of June
• ICE, RICS, CIWEM, IMech, IChemE, IET, Amec FW, Aecom, PM group, WSP, Air products Thursday 23rd June
• School Employer Connections Thursday 23rd of June
• Robert Gordon University Delta
• FM Global Thursday 23rd of June
• Newtonhill Primary School Thursday 23rd of June
• RS Components Thursday 23rd of June
• Women Returners Application deadline 24th of June
• Skanska UK Return-to-Work Programme 2016
  SMR Automotive Mirrors UK Ltd 1st of July
• School Employer Connections Thursday 23rd of June
• CV Library Thursday 16th of June
• Derbyshire Education Business Partnership Limited Various Dates
• People Like Me sessions, WISE
• Bishop's Hatfield Girls' School Science Fair 2016 Thursday 6th of July
• Stockport Engineering Training Association (SETA) Thursday 23rd of June
• iDiscover
• Faculty of Engineering/IMechE
• Amec Foster Wheeler Reading Thursday 23rd of June
• Tees Valley Centre Amec Foster Wheeler Tuesday 21st of June
• Prospect Thursday 23rd of June
• WEST (Women in Engineering, Science & Technology) Fridays 1st July 2016
• MAATS tweeting for NWED2016 Thursday 23rd of June
• Lagan Construction Group Thursday 23rd of June
• Abertay University Dr. Rebecca Wade - Dundee Thursday 23rd of June
• Gender Balance - Building the Future.
  A National Women in Engineering Day Event
  Impellam Group Plc Thursday 23rd of June
• Rochester Bridge Trust Saturday 18th of June
• Engineering for Civic Day.
• Abertay University Dundee Thursday 23rd of June
  Institution of Civil Engineers - Cardiff 21st June 2016
• Inclusivity in Engineering – the business case, Plymouth 23rd June 2016
• Birmingham City University 23rd June 2016
• University of Kent 23rd June 2016
• Amey Events in Scotland, Birmingham, Liverpool, Bristol, Swindon, London and Manchester
• The Open University - Milton Keynes Saturday 25th June
• The Open University Free course for returning to STEM
• Ormiston Denes Academy 14th April
• The University of Sheffield Tuesday 28th June
• The University of Sheffield - Faculty of Engineering Sunday 19th June
• University College London Bloomsbury Campus - London Thursday 23rd of June
• University College London Bloomsbury Campus London Monday 4th of July
• University of Greenwich - London Wednesday 11th May
• Bournemouth & Pool College Monday & Tuesday 4th & 5th July
• Heriot Watt University Edinburgh Thursday 23rd of June
• QinetiQ - Portsmouth Thursday 23rd of June
• Anglian Water St Ives, Cornwall Wednesday & Thursday 23rd 24th of June
• Womens Energy Network Norwich 20th May & 23rd of June
• GIN PALACE - FRIDAY 20TH MAY!!!!
  17:30-20:00
  Broadoak Academy, Weston-Super-Mare
• The Anita Borg Institute and ABI.London Wednesday 22nd of June
• University of Brighton, Moulsecoomb Campus Tuesday 21st of June
• Jaguar Land Rover Wolverhampton Tuesday - Wednesday 21st - 22nd June
• West Herts College - Kings Langley Campus
• PROCAT
• Yeovil College Thursday 23rd of June
• Christ's College Guildford
• Science and Technology Facilities Council
• Institute of Refrigeration Thursday 23rd of June
• Equate Scotland Thursday 23rd of June
• Institution of Mechanical Engineers Thursday 23rd of June
• Manchester Metropolitan University
• The University of Central Lancashire Saturday 4th of June
• Middlesbrough College STEM Centre Thursday 23rd of June
• Royal Air Force at Sheffield Hallam University, Didcot School for Girls, East Manchester Academy
• ITS group
• Wiltshire College Thursday 23rd of June
• Imagineering 1st -4th of June
• Institution of Civil Engineers/ Costain/Vinci Joint Venture – Tuesday 21st of June
• EDT – Engineering Development Trust Various dates
• 7th June - Go4SET Celebration and Assessment Day Sheffield Hallam University
  9th June - Go4SET Celebration and Assessment Day Sci Tech Daresbury
14th June - Go4SET Celebration and Assessment Day Newcastle University
16th June - Go4SET Celebration and Assessment Day University of Manchester
4th July - Go4SET Celebration and Assessment Day Seavision at Furness College

- House of Commons - Jeremy Corbyn Reception, Leader of the Labour Party 13th July
- A European Strategy for Gender Equality: Thon Hotel Brussels City Centre, Brussels - Wednesday 22nd of June
- P&G - Seaton Delaval Plant Thursday 23rd of June
- Wiltshire 3D Enterprise Centre - Thursday 23rd of June
- Schneider Electric in Plymouth Wednesday 22nd of June
- Loughborough University Wednesday 22nd of June
- Step Up, No Excuses - Women in Transport - Birmingham, Monday 20th of June
- Kaur Values Associates - Free Coaching for Women in Engineering 1st June - 30th June
- Kaur Values Associates - Beyond WISE Thursday 30th of June
- Faculty of Technology, Design & Environment Thursday 23rd of June
- Newcastle University - Thursday 23rd of June
- Brunel Engineers - Brunel University London Thursday 23rd of June
- Wallington High School for Girls - Thursday 23rd of June
- Oxford University - Dept of Engineering Science, Thom Building Saturday 2nd of July
- Instron Thursday 23rd of June
- Transport for Greater Manchester @ Metrolink 15th of June
- Parmiter's School - Watford - Thursday 17th November
- CONNECT Education & Business Norwich
- STEM Sussex / Tomorrow's Engineers Brighton - Tuesday 21st of June
- Heriot-Watt University Edinburgh Campus - Thursday 23rd of June
- The Society of Women Engineers Tuesday 28th of June
- The IMechE NE Young Members Panel and CIBSE NE Young Engineer’s Network Thursday 23rd of June
- Leicestershire Education Business Company Various dates
- Lutterworth High School - STEM Ambassador talk from Barbara Warburg, Engineer at PepsiCo, Leicester
- The Market Bosworth School – ICE talk from Molly McKenzie, ICE
- Ivanhoe College - STEM Ambassador talk from Tajinder Jagdev, Quality Assurance Director
- Brookvale High School - STEM Ambassador talk from Denise El-Rishmawy and colleagues, GE Oil & Gas, Leicester
- Hastings High School - STEM Ambassador talk and soil testing activity from Laura Westoby, Graduate Geo-Environmental Consultant, BWB Consulting Ltd
- Saint Martin's Catholic School - STEM Ambassador talk from Natalie Yeadon, Project Engineer at Mars Petcare, Melton Mowbray
- Manor High School - STEM Ambassador talk from Helen Braidwood and colleagues, Graduate OHL Engineer at AMEC Group Ltd
- Crown Hills Community College - STEM Ambassador talk from Lynne Stinson and colleagues, Civil Engineers at Leicestershire County Council
- Brockington College – IoP: Science, It’s a People Thing supported by Liz Penfold, Sustainability Manager, PepsiCo, Leicester
- The Institution of Engineering and Technology - Webinar
- AECOM/ Where Women Work Various dates
- JBA Consulting Thursday 23rd of June
- WESBath, University of Bath Thursday 23rd of June
- Amec Foster Wheeler at Kenton School - Newcastle Thursday 23rd of June
- Amec Foster Wheeler Shrewsbury
- Heriot-Watt University - Post Graduate Centre Edinburgh Campus, Edinburgh Thursday 23rd of June
- The Institute of Materials, Minerals and Mining Networking Meeting hosted by Women in Materials, 23
**Some Feedback from the Events**

NWED 2015 received excellent feedback from event organisers and participants alike. Feedback from NWED event organisers not only revealed great positivity in hosting an event for NWED, but also the intent and eagerness from all organisers to participate again in the future. One of the main observations reported by organisers was that the engineering activities were thoroughly enjoyed by girls and that NWED inspired them to think about career prospects that they would not normally consider. One school reported that 50% of their year 7 and 8 students expressed further interest in engineering while over half of students at Glyndwr University NWED event related a possibility of either studying a STEM related subject or going into a career in any of these areas. Glyndwr University also reported that all the students agreed that they had learnt something invaluable about engineering that was worth learning.

Below is a compilation of some of our NWED feedback from this year.

“The feedback from the event has been exceptional from both pupils and teachers. Teachers have already emailed us asking if they could book places for next year’s events. We had 100-120 pupils coming in every day from the 23rd of June to the 4th of July. The most popular sessions where our speed-networking sessions with over 40 engineers from academia and industry and our ”OpenLabs” departmental activities and tours where pupils got to try out some of the cutting edge technologies and methodologies used in our labs and meet staff and students from different areas of engineering and at different stages of their professional life.”

*University College London Dr. Elpida Makrygianni*

**BEng MEng MBA PhD**

“To celebrate NWED2016 the Randstad Inhouse Services Automotive team engaged with our clients to run a number of events to mark the occasion. Johnson Controls in Liverpool and Wednesbury held Open Days, inviting candidates to come along for assessment but with a twist, including a group exercise involved making towers from spaghetti and marshmallows and an opportunity to hear from some great guest speakers about their experiences in the Manufacturing industry. SMR in Portsmouth also held an Open Day on Friday 1st July 2016, there were profiles around the room from ladies currently working at SMR, test equipment set up from the Design team, speakers invited from most departments, guests had a site tour from the Supervisor and were invited to take our dexterity test. All events were hugely successful and we received great feedback from both the candidates and our client, since the day we have seen a noticeable rise in female applicants for the roles offered as well a large number of new starters from those applications. We look forward to supporting the IWED2017.”

“At Spirax Sarco, myself and three other women on our early careers programs, got together and ran a social media
campaign – I’ve attached our photo. We gathered statements, videos, photographs of women throughout Spirax (globally), asking them why they are an engineer, what they do, how they got there and so on. We posted on twitter, facebook, LinkedIn accounts and also had a landing page on our company website. The response was fantastic. Our social media statistics were incredibly high and internally, we had no end of positive feedback and engagement throughout the company – the conversation about women in engineering was wonderful to hear. We’re really proud of the outcome and looking forward to being involved next year“ - Rebecca McGinty | Graduate Engineer | UK & ROI Technical Proposals

“NWED 2016 involved supporting the social median campaign - so many more men took part in promoting women in engineering and our campaign demonstrated this. As Mark mentioned, we launch our London Bring your Daughter to work Day 2016 event and the case study from 2015 was circulated In 2015, we took on the challenge as a business to hold events across our company and seven sites were involved in fun packed activity days for girls between the ages of 11-18, we did some internal promotion. Other regions in our company have also agreed to run Bring your Daughter to work day again, Scotland will also happen on 16th Aug and our Wales and Western region are planning for October half-term events.” - Helen James BAM Nuttall Ltd

“Thank you for allowing our students the opportunity to meet such inspirational engineers and tour your site. As an engineering graduate, I found the experience enlightening and I know that our students too were emboldened to enter engineering-based careers as a result of the visit.” – London Gateway Port

“Participants particularly enjoyed the hands-on activities and finding out the different careers available from engineering.” - Techniquest Glyndwr, Wrexham

Participant’s feedback – “Very positive comments, both about the quality content and about enjoying a professional ITS sector event where a large majority of participants were female”

“Highlighting the contribution of women experts to CAV works - there are plenty of CAV events but usually with only male speakers and 90% male audience The dynamics of a female dominated professional event The support given to it by Transport for London” - Transport for London

“Not to shy away from opportunities” – Celebrating women in engineering Leeds University

“Be yourself, don’t feel you can’t do everything at first, you will learn” Attendee - Leeds University

“This day was empowering!” – Attendee Leeds University

“It is great to see that so many people took the time to respond to the survey and did such a fantastic job of reminding us all of what has been achieved by women in the engineering field.” Laura Dunlop, Chair of the Women in Building Services Engineering (WiBSE) group

“The Leigh UTC Girls excelled themselves in a challenge taking place a Greenwich University where students in groups had to design a sustainable city and present their designs and marketing videos to an audience in one of the University’s lecture theatres. Our girls took the lead in group design work, including collaborating with visiting students from other schools. There were some very competent speakers, commended by the organising Lecturers and design architects. Some of our girls took the opportunity to visit the Art and Design work carried out by graduating students at the University, prompting them to say that they would wish to pursue a degree in Design. A big well done to our female Engineers!”

NWED 2016 Impact
“As part of our contribution to the day’s celebrations, we took to social media, launching the #CreateAnything campaign. This was inspired by Einstein’s famous quote “Scientists investigate that which already is; Engineers create that which has never been.” – Transport for London

“When I joined Atkins, I thought that I must be different from other girls, as I was working in a predominantly male field. But I have come to realise over the years that it shouldn’t be about gender but about having a passion, no matter what gender. I have been volunteering in schools since 2008, as it is important to me that young people, especially girls, aren’t put off science and engineering. Through this volunteering I have had the opportunity to see that its companies like Atkins which have taken the lead in society to encourage better diversity in Science, Technology, Engineering and Maths (STEM) careers.” - Vicky Stewart

“We invited mentors in to our school, and I used the WES People Like Me materials, and it was awesome! The children thought it was really engaging, having some really interesting people coming in from their working lives to meet them was brilliant! Any one of the students was pleased enough to go home and tell their parents about their day, and what kinds of people they knew they were – they were just like some of their mentors! Congratulations on a great set of resources too – great work!” Mark Brown Whitworth Park School

“The morning started with a fun quiz about engineering, followed by presentations given by three female engineers representing Structures and Infrastructure. The presentations covered the different paths (university and apprenticeship) into engineering, the daily job and project examples as well as the various integrated disciplines that work together within the company. This was followed by tea, cakes and discussions around four projects covering the different types of projects (buildings, highways, refurbishment) and where we operate. The purpose of the discussion was to get the girls thinking about the processes that go around designing structures, with a particular focus on impact on economics, environment and the social aspects. Both us and the girls have enjoyed the morning, and the teachers were very pleased with our presentations and approach.” – Salma Hussain Arup Bristol

“I hope the event will mark the start of a programme of activities to further improve diversity in Eight2O. There was a real interest from the attendees in further women’s events and possibly establishing a mentoring network, as well as carrying out salary and benefit benchmarking exercises to be able to measure our success and identify improvements.” - Catherine Dunford, Project Manager and event organiser

“Please can you convey my thanks to the WES committee for this excellent initiative, which has been widely praised, and all the hard work that has gone into making this happen” - Angela Seeney Director of Technology, Supply Chain & Decommissioning, Oil and Gas Authority

“We had daughters join us from many different areas of the business and they all said they had a great day. We already have a number of young female engineers who have followed their parents into careers with Lockheed Martin and hopefully we’ve just inspired a few more.” - Lockheed Martin

“Thank you for the great event that you organised last Thursday, it was a real privilege to be included with such an esteemed group of inspirational women from such a broad range of industries and demographic. The event was very enjoyable with a good mix of networking and excellent thought provoking speeches.” Dr D A Smith OBE Managing Director of BRE Global
Plans for 2017 - International Women in Engineering Day

Due to the success of this year we will be relaunching next year as International Women's Engineering Day

Sponsorship 2017

As a non-profit charity, we rely solely on grants and generous donations to operate INWED and get more girls and women into engineering. NWED was launched by WES in 2014 without any funding, but nevertheless has had a significant impact on diversity in schools and the wider community. For 2016, with generous sponsorship from Cummins, Prospects College of Advanced Technology, Yorkshire Water, TWI, the National Structural Integrity Research Centre (NSIRC), Sheffield Hallam University, the University of Surrey, Elsevier, the Royal Academy of Engineering, FM Global, the Institution of Engineering and Technology, Building Engineering Services Association (BESA), WILEY, the Institute of Acoustics and the Institute of Refrigeration we were able to employ a part-time NWED coordinator and increase the reach of this initiative.

With your help, we can continue to produce and distribute our fantastic INWED resource packs and develop more innovative ways to reach out to more young women across the UK, allowing us to change the face of engineering.

Due to the success over the last few years of NWED we are relaunching as International Women’s Engineering Day in 2017.

Benefits of Sponsorship for INWED 2017:

- Logo featured on our website, resource pack and all communications relating to INWED17
- Mention of your organisation in official INWED press release
- Opportunity to include literature in our resource packs
- Invited to INWED reception on 23rd June 2017, as a sponsoring partner
- A unique opportunity to get involved in directly promoting diversity and equality in engineering
- Ability to use ‘INWED Official Sponsor’ in your communications

Cost of Sponsorship 2017

- Corporates: £3,000+VAT
- Charity & non-profit organisations: £1000+VAT

If you are interested in sponsoring INWED 2017, please visit http://www.nwed.org.uk/sponsorship.html

For more information, please contact the WES CEO on ceo@wes.org.uk or the INWED team on nwed@wes.org.uk

International Women in Engineering Day is a product of the Women’s Engineering Society.

Appendix 2. Event Further Details

Below are some of the further details of the events listed earlier.

WES NWED Launch - Top 50 Women in Engineering Breakfast Networking event  Thursday 23rd of June

On 23 June, to coincide with National Women in Engineering Day, the Top 50 Women in Engineering will be announced in the daily Telegraph, and the list will be launched and celebrated at a breakfast networking event at IET, Savoy Place, London. Backed by The Telegraph, the Women’s Engineering Society and sponsored by Scottish Power, Mars Petcare, Jaguar Land Rover, SEMTA, IET and BAE Systems, the aim of this initiative has been to boost female uptake of engineering roles and careers by celebrating the notable achievements made by women in the sector.

This event will also launch National Women in Engineering Day, sponsored in 2016 by Building Engineering Services Association (BESA), Cummins, Elsevier Engineering Village, FM Global, IET, Institute of Acoustics, Institute of Refrigeration, NSIRC, Prospects College of Advanced Technology, Royal Academy of Engineering, Sheffield Hallam University, University of Surrey, Wiley and Yorkshire Water.

This event will be held at The IET Building, Savoy Place, London

To book your space please click here.

WES: Towards Our Centenary - Thursday 23rd of June

An overview of the Women’s Engineering Society will take place on National Women in Engineering Day (23 June 2016) at the IET Savoy Place between 10.30am and 12.30pm in the Turing Lecture Theatre. This is a free event, however registration is required.

Programme

- WES Overview, Dawn Bonfield WES Chief Executive
- Future Strategy, Benita Mehra, WES President
- Sparxx, Elsa Ekevall, WES Sparxx Project Manager
- Towards our Centenary, Sarah Peers WES Vice President

For more information and tickets please click here.

Female PPE - Does one Size Fit All? in collaboration with WES, WISE, IMechE, Prospect & the TUC London Thursday 23rd of June

To mark National Women in Engineering Day WISE has organised a Knowledge Sharing Event to address a critical issue for women in the industry, in partnership with WES, IMechE, Prospect & the TUC.

High quality, comfortable personal protective equipment can have a huge impact on not only the safety of an employee but also on their confidence and performance in the workplace. Investing in suitable PPE is a practical way that employers can demonstrate they value and respect their female workforce.

Most employers claim that the health and safety of their employees is of paramount importance. Is the wellbeing of women who need personal protective equipment still being overlooked or has real progress been made with PPE for women? Join us to discuss!

This event will give you the opportunity to:

- Share your experience
- Meet suppliers
- Hear about good practice
This event is being held at IMechE
1 Birdcage Walk
SW1H 9JJ London
United Kingdom

Tickets are free please click here to book your space

IET, IMechE, ICE, IChemE, RICS and CIWEM National Women in Engineering Day: The Big Discussion Thursday 23rd of June Savoy Place London
The Institution of Mechanical Engineers (IMechE), Institution of Civil Engineers (ICE), Institution of Engineering and Technology (IET), Institution of Chemical Engineers (IChemE), Royal Institution of Charted Surveyors (RICS) and Chartered Institution of Water and Environmental Management (CIWEM) have organised a diversity event and discussion on 23rd June to celebrate National Women in Engineering Day (NWED). The event will take place at the Turing lecture theatre at the IET Savoy Place facilities from 18:30 and will be followed by a drinks reception.
Confirmed speakers: • Moderator - Antony Oliver, Former Editor of the New Civil Engineer and Infrastructure Intelligence • Alison Baptiste, Director Strategy & Investment at Environment Agency • Dawn Bonfield, CEO WES • Sarah Haslam, Powertrain Engineering Manager at Ford Motor Company • Steve Morriss, CEO Europe, Middle East, India and Africa at AECOM This event is also supported by AECOM, Air Products, PM Group, Amec Foster & Wheeler and WSP Parsons Brinckerhoff. This event is aimed at Professional and students from these PEIs and will be held in the Turing Lecture Theatre, IET Savoy Place. Please click here to book your ticket.

London Bridge Redevelopment Project Thursday 23rd of June
We have invited 30 girls from a local school girls to our office, we will have a presentation and activities (spaghetti challenge and water structure challenge)

MWH Global Thursday 23rd of June
We will be releasing five “A Day in the Life videos” to celebrate our fantastic women engineers throughout this week to coincide with the NWED2016 campaign.
We will be promoting the release of these video via our social media platforms Twitter, Facebook, LinkedIn and they will sit on our MWH You Tube Channel and on our MWH Global website.

Network Rail Ltd, Euston Station Thursday 23rd of June
A day of information sessions on careers in Network Rail and activities with local schools run by Jeremy King http://jeremykingengineeringinschools.co.uk/
This event is located at Euston Station.
This event is open to the public.

Spirax Sarco
We have set up a media ‘campaign’ where we have collected video’s and bio’s from all the women around the engineering business. The aim is to show the exciting variety of careers women can have within Engineering. We have over 20 examples of different career paths and stories of how and why women in the business decided on engineering.

We are really looking forward to the day and are also taking part in a local girls school event to encourage those thinking about their careers that engineering can be a real, fun and an unexpected career.

Whitworth Park School Thursday 23rd of June
NWED, we have visiting mentors from Durham Energy Institute, Northumbria University, Durham City Council and students who are interested or want to find out more...

Mentors will be working with year 7 and 8 students, using People Like Me resources, and interviewing mentors about their work, skills and what they enjoy and find challenging.

Student teams, will then create a short presentation to give to their mentor demonstrating the range of opportunities and types of people that work in STEM.

We are very fortunate to have the support of the following people working, teaching or learning in STEM areas, with Engineering, Mathematics and Sciences very well represented.

We will be welcoming:

**Lynn Gibson**, Institute Administrator, Durham Energy Institute, University of Durham,

**Dr Donatella Zappalá** MSc MIET Research Associate New & Renewable Energy Group School of Engineering & Computing Sciences University of Durham

**Sara Sheehy**, Research Associate - New & Renewable Energy Group School of Engineering & Computing Sciences University of Durham

**Dr Amy Wilson**, Postdoctoral Research Associate, Department of Mathematical Sciences, University of Durham

**Michelle Shearer**, Senior Engineer, Traffic Assets, Durham City Council

**Lucy Tetley**, Royal Society of Chemistry Education Coordinator

**Sarah Odofin**, Postdoctoral Research Associate, Electrical and Electronics Engineering, Northumbria University, Newcastle

**Maria Alafogianni**, MSc Renewable Energy Technology, Research Associate in Mechanical Engineering at Northumbria University, Newcastle

**O2 Slough Office Thursday 23rd of June**

O2 are set to open their doors in celebration of National Women in Engineering Day on Thursday 23rd June. Inviting 30 high school students to visit their Slough office, O2 are hosting a day full of activity to show young adults what a career in telecoms and technology really entails. O2 will host a variety of speakers throughout the day, giving students an insight into the day to day life within the industry. Students will get to ask the speakers questions throughout the day, including the opportunity to speak with them in a more informal setting during a networking lunch. Students will also get to see how O2’s network infrastructure works through group activities, and be able to check out some new cutting edge technologies from the Lab at O2. Experts will also be on hand to offer students career advice and tips on everything from interview technique to CV writing, plus there will be a tour of the office so that students can really get a feel for the working environment.

**POWERful Women Thursday 23rd of June**

For NWED we wanted to inspire women in engineering by featuring the career of Anne-Marie Waris

https://uk.linkedin.com/in/annemariewarris

Anne-Marie is a Chartered Engineer and a Chartered Environmentalist and a Fellow of the Energy Institute, she is currently supporting and driving renewable energy developments in relation to marine wave energy, she is the chair of ISO (International Organization for Standardization) sub-committee responsible for environmental management systems; chair of the CCell project board. CCell is developing marine wave energy www.ccell.co.uk

We will be hosting an article about Anne-Marie on our website www.powerfulwomen.org.uk which is the first in series covering inspirational women in energy.
University of Salford Thursday 23rd of June
We are holding engineering activities for year 7 and 8 from local schools during the day and a workshop involving local industries in the evening looking at what could the industry do to recruit and retain women engineers.

Stockport Metropolitan Borough Council; 14-19 Services Thursday 23rd of June
The Apprenticeships Store staff will be promoting engineering as a career option to local females. The event is organized in conjunction with Stockport Engineering Training & Advisory Services (SETA). We will be hearing from 2 females who have trained in the engineering sector locally about their experiences and listening to the advice they have to offer to anyone considering it as a future career. The event will be held at Stockport Exchange, Wellington Road South, Stockport. SK1 3TA. To book your place please email apprenticeships@stockport.gov.uk Feel free to turn up on the day but priority will be given to those who have pre-booked a place. Maximum capacity 30 places.

Abbots Hill School Thursday 23rd of June
Using K'Nex to build tallest tower to support a cup.
This event is located at Abbotts Hill School.
This event is not open to the public.

Warwick University Thursday 23rd of June
Magnificent Women and Their Flying Machines - Girls construct aircraft wings using stixx - (4ft - to 6ft in size). Girls research and present back on famous engineers and scientists from the past 100 years. Speakers / Interactive session Plenary session
This event is not open to the public,

Matravers Thursday 23rd of June
Building a bridge competition in teams. Which bridge can support the most weight?
This event is located at Matravers School.
This event is not open to the public,

SPT Thursday 23rd of June
Open day to find out more about Subway operations and the £288 million modernization project currently on-going.
This event is located at Glasgow Subway Broomloan Depot.
This event is not open to the public,

Nuvia Limited Thursday 23rd of June
Nuvia Limited’s Women in Engineering & STEM roles are hosting two careers events for Y9 and Y10 students.
This event is located at Harwell & Risley.
This event is not open to the public,

Farnborough College of Technology Thursday 23rd of June
A day of hands-on Engineering activities to celebrate National Women in Engineering Day. Featuring activities such as: Material Magic Sky-lift building Electronic Insights Magnificent flying machines.
This event is located at the Farnborough College of Technology.
This event is not open to the public,

Siemens Thursday 23rd of June
The Siemens Education See Women (Girls in STEM) project aims to inspire and motivate young girls to pursue STEM careers and challenge gender stereotypes. The Project was launched on International Women’s Day 2016 at Withington Girls School, Manchester, with an original live stage show created by Siemens Education and well-known
scientist and BBC presenter Fran Scott. The project is part of a unique collaboration between Siemens and the Girls’ Schools Association (GSA). The showcase at THORPE PARK Resort follows the project’s successful launch and is one of many showcases being delivered in schools across the UK by a mix of professional presenters, Siemens STEM ambassadors, and GSA alumni. Today’s showcase has been created especially for girls, to place the spotlight on modern STEM female role models in Siemens and beyond. The interactive, curriculum-linked stage show explores modern women’s ground breaking contributions to science, technology and engineering, taking the audience on a journey into the world of STEM with captivating live stage experiments. The show aims to excite the audience with thought-provoking activities to build their confidence and motivate them to set future goals and raise their aspirations.

This event is located at THORPE PARK resort.
This event is not open to the public.

ICE, RICS, CIWEM, IMech, IChemE, IET, Amec FW, Aecom, PM group, WSP, Air products

Thursday 23rd of June
Webinar to engage students into engineering. An open discussion will be held between panellists (women engineers of different disciplines) and then various videos will be displayed to encourage.
This event is located Institution of Mechanical Engineers, IMechE.
This event is open to the public.

School Employer Connections Thursday 23rd of June
Female students will be introduced to robotics and engineering at one of our most exciting engineering companies.
This event is located at Sphere Global.
This event is not open to the public.

Robert Gordon University Delta
In collaboration with the Engineering School at RGU we are providing 30 S3-S-5's females with the opportunity in an activity day which includes two engineering workshops. This event is not open to the public.

FM Global Thursday 23rd of June
Our sponsors FM Global will be attending the NWED breakfast in London
We will have at least two women engineers attending the Brunel University tea-party and “speed networking” event, in the afternoon of 23 June, and we will be bringing some yummy cupcakes to help the party along.
Four of our engineers (three women and one man) will be taking part in activities at Charters School in Ascot on the morning of 22 June. We will be holding an assembly for Year 12 students and taking part in maths lessons for Year 10, as well as answering questions about engineering in exchange for cupcakes at break time!
Three of our women engineers will be taking part in activities at Windsor Girls School on the morning of 24 June.
We will be holding an assembly for Year 12 students and taking part in a science lesson for Year 9, as well as answering questions about engineering in exchange for cupcakes at break time!

Newtonhill Primary School Thursday 23rd of June
Zombies have taken over and the pupils need to use their engineering skills to survive.

RS Components Thursday 23rd of June
We have produced a short video to celebrate National Women in Engineering Day. It will be posted on our Social channels and supported with Social posts which include comments from influential women in engineering

Women Returners Application deadline 24th of June
Skanska UK Return-to-Work Programme 2016
Women Returners are partnering with Skanska, a leading construction company and developer, to launch a new UK Return-to-Work Programme. Opportunities exist across the business including engineering (civil, mechanical, electrical, design, geotechnical); operations (planner, project manager, construction supervisor, facilities/general management, BIM technician); commercial (quantity surveyor, buyer, commercial manager); and enabling functions (HR, IT, Health & Safety, Environment, Finance). Skanska are looking for talented professionals, both male and female, with relevant skills and experience who have taken a voluntary career break of two or more years. The programme is based in London and surrounding areas, at Maple Cross, and in Cambridgeshire. It will run for 12 weeks, starting on 26 September 2016, with the view to roles becoming permanent at the end of the period. Skanska are happy to consider candidates on a full time or part time basis throughout the programme duration and once the positions become permanent. Participants will placed in projects or departments where their skills and experience will be highly valued and utilised. They will receive coaching workshops from Women Returners, mentoring and a comprehensive induction process. For more details see: Skansa Return-to-Work Programme. The application deadline is Friday 24 June 2016.

SMR Automotive Mirrors UK Ltd  1st of July
SMR Automotive Mirrors are holding an event on Friday 1st July, 9am to 1. The event will have guest speakers, a site tour, presentations. The event is aimed to local women interested in the Engineering industry, to book your space please contact katherine.decambra@randstad.co.uk. The event will be held at Castle Trading Estate, East Street, Portchester, Hampshire, PO16 9SD.

School Employer Connections Thursday 23rd of June
Female students will be introduced to robotics and engineering at one of our most exciting engineering companies

CV Library Thursday 16th of June
HAMPERSHIRE – 16th June 2016 – With ‘National Women in Engineering Day’ just around the corner, the UK’s leading independent job site, CV-Library, has carried out a survey...the results will follow shortly.

Derbyshire Education Business Partnership Limited Various Dates
People Like Me sessions
STEM Ambassadors will use the new 'People Like Me' resources from WISE (Women in Science and Engineering) to show girls aged 11-14 that people just like them are happy and successful working in STEM careers. We will be hosting the following:
Tuesday 21 June at The Pingle School, (25 students in Years 8-10)
Thursday 23 June at City of Derby Academy, (15 Year 10 students)
Thursday 23 June at Aldercar High School, (17 Year 9 students)
Monday 11 July at Merrill Academy, (Year 8

Bishop's Hatfield Girls' School Science Fair 2016 Thursday 6th of July
This is the seventh in a series of annual events and promises to be the most exciting one yet. The competition to participate in this event began during British Science Week in March. Pupils in Years 7, 8 and 9 worked with a team of their peers to investigate a scientific question or topic of their choice. Each group presented their plan to their Science class and one was selected as the favourite to go forward to the Science Fair finals. The work of the finalists will be showcased with pomp and circumstance on Wednesday 6th July 2016 from 2:30 to 5:30pm in the school hall. There will be an exhibition of antique science equipment (we are moving into a brand new school building in October 2016) some of which will be auctioned to raise money for the new school building. Some girls will also be taking part in the ‘Did you know...’ fundraising event.
Stockport Engineering Training Association (SETA) Thursday 23rd of June
This year SETA (Stockport Engineering Training Association), in partnership with Stockport MBC and the Apprenticeship store will do an engineering awareness event/activity for year 10/11 and sixth form girls from local schools.

We will include
Engineering Facts and famous Women Engineers quiz/Link to WES website and information.
How Engineering helps your everyday. (What have engineers done for us today)
Video link and interview with two SETA female apprentices and their engineering jobs and progression and employer.
Websearch and facts about contrasting local engineering companies.
A presentation by a major local food manufacturer about engineering and engineering apprenticeships with that employer.

iDiscover
A highlight of the children’s iDiscover week will be meeting and learning from real STEM role models at a Careers Carousel. The aims of the session are to raise children’s awareness of the range of careers in the industry and to emphasise that they could do these jobs!

Faculty of Engineering/IMechE
The event will consist of inspiring talks from some of our region’s most exciting female engineering mentors and role models, hosted in collaboration by Women at Leeds, Women Engineering Society (WES) and the North Yorkshire Young Members panel of the iMechE. The event will be beneficial for all, students, teachers, young engineers are all welcome to what is set to be an inspiring evening of real life careers and successes of some of Yorkshire’s most prominent women engineers. To book your space please click here.

Amec Foster Wheeler Reading Thursday 23rd of June
We are hosting a panel discussion on the topic “Women in Engineering; In or Out”. Amec Foster Wheeler Energy Ltd, Shinfield Park, Reading for our staff, we expect around 100 attendees. 23rd June 12.30

Tees Valley Centre Amec Foster Wheeler Tuesday 21st of June
Women in Engineering Event being held at - The Beehive, Lingfield Point, Darlington DL1 1YN
Tees Valley Centre are working with Darlington Council (Darlington Foundation for Jobs) for the event, with other companies such as Cummins and Modis also attending.
The event is on the 21st June, 9.30 – 12.30
There will be a short introduction to include who the staff are, myself Kimberley Ryott (Learning & Development Coordinator), Amy Hamilton (Technical SHE Designer) and Natalie Quinn (Process Engineer)
A presentation in the background running with information on Amec Foster Wheeler, what we do and also famous female engineers.
The activity, for the day from The Welding Institute, gives students the opportunity to build structures made from chocolate (Milky bars). In the example given, a box-section is compared with a flat plank of chocolate, to see which is the strongest when spanning a gap. The structures are readily related to the context of bridge-building.
Students join flat pieces of chocolate using ‘welds’ made by melting the chocolate using a bottle of hot water.
The activity is to demonstrate ideas such as the strength of structures, welding, melting, strength testing and the properties of materials. Only Schools and colleges in the Darlington council area are invited and you will need to fbbook by liaising with Darlington Council’s coordinator – Owen McAteer for contact details please email nwed@wes.org.uk

Prospect Thursday 23rd of June
The United Kingdom has Europe's lowest proportion of women in engineering. Prospect, with other organisations, is sponsoring WE50, the Top 50 Women in Engineering campaign. Coordinated by the Daily Telegraph, the campaign aims to inspire a new generation of women engineers. The top 50 women in engineering will be revealed on National Women in Engineering Day (NWED) 2016

Who are the most influential women in engineering on Twitter?

To tie in with National Women in Engineering Day and the WE50 announcement, we've looked at the top 50 women in engineering on Twitter. Twitter is a powerful proxy for social influence. We've considered women who are active on Twitter and who are working in - and promoting - engineering in the UK.

How can we measure influence?

As with our Top 60 UK #WomenInSTEM influencers, we've measured Twitter influence using an established online analytics tool, Followerwonk. We ranked Twitter users using a Social Authority score from 1 to 100, based on the proportion of retweets from a user's few hundred most recent tweets.

Our Top Ten

#1 Dr Sue Black OBE @Dr_Black Claiming the top spot with the highest social authority, most followers and most tweets is Dr Sue Black, OBE, author, tech tweeter, and founder of BCSWomen.

#2 Oona Räisänen @windyoona
In second place is Oona Räisänen. Programmer, signals hacker, blogger, and one of only 3 women in our Top 50 with over 10,000 followers on Twitter.

#3 Vinita Marwaha Madill @Rocket_Woman1
At #3 is STEM advocate Vinita Marwaha Madill, Space Station Operations Engineer and founder of Rocket Women, encouraging women in space and technology.

#4 Kate Bellingham @KateBellingham
Our fourth most influential woman in engineering on Twitter is Kate Bellingham, BBC TV presenter, President of Young Engineers, and patron of WISE.

#5 Leonie Watson @LeonieWatson
Completing the top half of our top ten is Leonie Watson, blogger, writer, accessibility engineer, and accessibility consultant for the UK Government.

#6 Dr Heather Williams @alrightPET
In joint sixth place is Dr Heather Williams, Director at Science Grrl, STEM Ambassador, and Senior Medical Physicist at Manchester Royal Infirmary.

#6 Dr Lucy Rogers @DrLucyRogers
Also in joint sixth is our second most prolific tweeter, Dr Lucy Rogers. Writer, blogger, maker, engineering consultant, and space and science tweeter.

#8 Rachel Berry @rhbBSE
Rachel Berry is eighth. Blogger, software engineer, and CAD, cloud and virtualization expert.

#9 Fiona Gleed @FiDaisyG
In ninth place, Chartered Structural Engineer and PhD Researcher Fiona Gleed has the second most tweets in our table.

#10 Jaz Rabadia MBE @JazRabadia
Completing our Top 10 is Jaz Rabadia, MBE, STEM Ambassador and Energy Institute Board Member.

WEST (Women in Engineering, Science & Technology) Fridays 1st July 2016

We've launched our annual small grants scheme for women aged 16+

Bursaries of up to £500 (but normally more like £50 - £150) are for women in Yorkshire, Nottinghamshire and Derbyshire who are studying or training for a job in science, technology, engineering or the built environment. Money is very flexible and can pay for lots of different things including fees, equipment, travel and childcare. Priority is to women who have not had the chance of education at a level 2 qualification or above, and women on low incomes or benefits.

Deadline is Friday 1 July 2016
Read about last year’s winners
Apply now!

MAATS tweeting for NWED2016 Thursday 23rd of June
The women at MAATS will be tweeting daily on what they do each day for the next two weeks for NWED 2016. We are a small company with a multimillion pound turnover, supplying cable / pipe lay equipment for the marine industry. 9/40 of us are women - 4 engineers, 1 company director, 1 procurement manager and 3 in quality/admin roles and we all enjoy what we do!

Follow us on @maatstech

Lagan Construction Group Thursday 23rd of June
We are hosting a site visit to one of our Belfast sites for local school girls.

Abertay University Dr. Rebecca Wade - Dundee Thursday 23rd of June
Gender Balance - Building the Future. A National Women in Engineering Day Event
Inspiring speakers and networking opportunities with Afternoon Tea
Venue: Abertay University (Hannah Maclure Centre) from 2.30pm to 5pm
Agenda
2.30pm - 2.50pm - Afternoon Tea and networking (in HMC foyer area)
2.50pm - 3.00pm – Welcome (in HMC Cinema)
3.00pm - 3.30pm - 1st Guest Speaker Allison Johnstone (Equate Scotland)
3.30pm - 4.00pm – 2nd Guest Speaker - Dr Nina Baker (Glasgow City Council and independent researcher of engineering history)
4.00pm - 4.30pm - 3rd Guest Speaker - Mariana Trusson (Cundall)
4.30pm -5.00pm - Networking and Close.
Twitter hashtags #NWED2016 @AbertayUni @AbertaySci @NWED1919

This event is free but you need to register for a ticket please click here.

Impellam Group Plc Thursday 23rd of June
We are working on an original content paper around women in engineering which will hopefully encourage clients to get involved and take a stand with the issue.
In the run up to 23 June we will be tweeting, Facebooking and talking about it on LinkedIn and will be publishing the paper (hosted on our website) on the 23 June, Please look at www.carbon60global.com

Rochester Bridge Trust Saturday 18th of June
Engineering for Civic Day.
When: 11am-2pm on Saturday, 18th June, drop in at any time
Where: Rochester Guildhall, Rochester High Street, Rochester, ME1 1PY
Cost: Free
Age: Children and adults
Details: Meet Langdon the Lion and take part in bridge building challenges, Mars bar competitions and free design fun. The education mascot, Langdon the Lion, will also be there.
We look forward to seeing you there!

**Abertay University Dundee Thursday 23rd of June**

We have visiting speakers and a networking event: 2.30-5pm, 23rd June at Abertay University.

One of our speakers is Dr Nina Baker

[Nina Baker has had a varied career, mostly in traditionally male-dominated fields. On leaving school in 1972 she went to sea with BP Tankers and became a deck officer, later moving to cargo ships and gaining her First Mate’s Certificate. She returned to education as a student of engineering design at Warwick University and then gained a PhD in concrete durability, from Liverpool University. Since then she has lived in Glasgow, working mainly as a research administrator in the engineering faculties of the universities of Glasgow and Strathclyde. Now retired from that line of work she combines being a Scottish Green Party councillor on Glasgow City Council with being an independent researcher of engineering history].

Case studies: we are preparing profiles of 3 staff, 3 graduates and 3 current students to showcase women in engineering at Abertay. This will be added to our webpages.

**Institution of Civil Engineers - Cardiff 21st June 2016**

This is Civil Engineering - Three speakers, Dr Jarmila Davies, Helen Randell and Carli van Niekerk, will talk about their experiences as Civil Engineers, with reference to specific projects and their experiences as women in the Civil Engineering profession.

Speakers

**Julie James.** Until being elected as Labour Assembly Member for Swansea West, Julie was a leading environmental and constitutional lawyer. Prior to this, she was assistant Chief Executive at Swansea Council. She spent most of her legal career in local government, working as a policy lawyer with the London Borough of Camden before returning to Swansea to work for West Glamorgan County Council and then the City and County of Swansea. Read her full bio

**Dr Jarmila Davies**' talk will be centered around her description of challenges and opportunities she encountered during her versatile career in academia and the civil service, and in her engagement with various agencies dealing with equal opportunities and promotion of STEM careers to the general public. She will talk about people who influenced her career choice and who had a lasting impact on her professional development. She will give several case examples of her work as a consultant and expert witness. Read her full bio

**Carli van Niekerk** will talk about her work with Thames Water on surface water management in order to boost sewer resilience. By returning sewers to their intended purpose of draining wastewater, the capacity of the sewer network will be improved to cope as the population grows, our towns and cities become more urbanised and our climate changes. Read her full bio

**Helen Randell** will talk about her experiences as a Civil Engineer, referencing some of the projects she has worked on and how she has found being a woman in engineering. She will also talk about promoting women into engineering through schools, encouraging female engineers to stay in the profession and why it is so important to aim towards membership or chartership of a professional institution. Read her full bio

Sponsored by **ABC Electrification**

**Inclusivity in Engineering – the business case, Plymouth 23rd June 2016**

In 2013 over 30 Professional Engineering Institutions in the UK signed the “Engineering Diversity Concordat” with
the Royal Academy of Engineering in which they agreed to commit to equality and inclusion principles and practices and to take action to increase diversity amongst professional members. This is also important if we are to meet the increasing demand for engineering graduates in the UK into the future. This seminar on National Women in Engineering Day brings together both experienced and aspiring engineers from industry and education to discuss diversity in the engineering workforce and what we can do at individual, corporate, and institutional levels to achieve continued improvement. Sessions and presentations from both the engineering and non-engineering profession will include;

- Is Inclusivity good for business?
- Is your business inclusive?
- Is the ceiling made of glass?
- Meeting the workplace challenge
- When I grow up, I want to be...
- Preventing discrimination in the workplace

To book your place and more information please click here

**Birmingham City University 23rd June 2016**

"We are really looking forward to welcoming you to our National Women in Engineering Day event at Birmingham City University where we are expecting seventy year seven and eight students from seven local schools. We will be finding out what it means to be an engineer from women working across all fields of engineering and will be taking part in a challenge from the charity Practical Action to help design flood proof homes. The challenge will be a practical session, working in teams of five. It would be great if each school could arrange the students into two teams and think of suitable team names. The winning team will win exciting prizes, Amazon vouchers and a trophy, sponsored by Birmingham City University and Enpure Doosan"

**The day will look a bit like this:**
9.30 Arrive and registration.
10.00 Welcome and talks from engineers
10.45 Introduce the challenge from Practical Action
11.00 Teams work on challenge with a mentor
12.00 – 1:00 Working lunch
1.30 Challenge testing and judging
2.00 Prize giving and wrap up session
2.30 Leave

If you would like any more information about the day, please get in touch with Jeff Chilton. **Jeff.Chilton@bcu.ac.uk**

**University of Kent 23rd June 2016**

For the third year running, the School of Engineering and Digital Arts at the University of Kent, will be hosting ‘Women in Engineering, Research, Engineering & Design’ (WiRED) – an all-day enrichment activity for young women from local schools and colleagues in the South East. For further details see - [http://www.eda.kent.ac.uk/school/news_article.aspx?aid=14010](http://www.eda.kent.ac.uk/school/news_article.aspx?aid=14010)

**Amey**

Amey supported NWED 2015 with various activities across the country and are looking to broaden their impact this year with more events and activities these include:

A report on Women in Engineering at Amey

**Scotland** - Going into local primary, talking about engineering, (part of STEMnet), ladies Day at Queens Ferry
Crossing and activities in Amey office (Motherwell, Edinburgh) - details of activities to be confirmed.

Birmingham - Challenge Cup - 4 Schools, 8 girls In each group facilitated by Amey engineers.
Panel discussion - Amey’s visiting professor for Asset Management at Birmingham Uni - TBC
Birmingham University - Amey’s visiting professor for Asset Management at Birmingham University looking for opportunities to engage BU.

Liverpool - Local school groups - site visits – STEMnet.

Bristol/Swindon - Local School groups - site visits to local schools – STEMnet

London - Tideway and Amey Returners session - Participants, line managers and mentors invited to shared learning event. (For participants on current returners programmes)

Manchester - Presentations at events hosted by local universities.

The Open University - Milton Keynes Saturday 25th June
'Making Connections: Celebrating Women in Engineering

The Department of Engineering and Innovation in MCT are holding an inaugural student Women in Engineering Conference on Saturday 25 June 2016 at The Open University, Milton Keynes

The event aims to celebrate National Women in Engineering Day (NWED) which is today (23 June) as well as provide opportunities for meeting, and building networks with, other female engineering students. We will have presentations from practising female engineers and activities to help the students get the most from their engineering studies. We will also be launching a national student forum aimed at Women in Engineering.

The Open University Free course for returning to STEM
Enrolling on the course will give you the opportunity to earn an Open University digital badge. Badges are not accredited by The Open University but they’re a great way to demonstrate your interest in the subject and commitment to your career, and to provide evidence of continuing professional development.
Once you are signed in, you can manage your digital badges online from My OpenLearn. In addition, you can download and print your OpenLearn Statement of Participation – which also displays your Open University badge.

Learning outcomesAfter completing this course you will be able to:

- identify key experiences and attributes, and know how to use online tools effectively to be visible
- identify long-term goals and create an action plan and CV to achieve these
- know about future trends in STEM employment and where to find STEM jobs online
- be able to identify mentors and networks that can help with returning to work
- understand work–life balance solutions and know more about different types of flexible and agile working.

For more information please click here

Ormiston Denes Academy 14th April
Held a STEM Careers event on 14th April 2016 at their academy. This was open to year 9, 10 and 11 students and parents. pictures to follow.

The University of Sheffield Tuesday 28th June
Year 12 students are invited to a free one-day event to experience hands-on activities, demonstrations and short
lectures to give you a taste of what studying science and engineering at university involves. The event takes place on Tuesday 28 June, 10:00am to 4:00pm at the University of Sheffield, Western Bank, S10 2TQ. This event is open to the public. But booking is required please visit www.stemexplore.co.uk/events/

The University of Sheffield - Faculty of Engineering Sunday 19th June
A free event with free activities called "Engineering Imagination" on Sunday 19th June 2016
venue: Winter Garden, 90 Surrey Street, Sheffield, S1 2LH.
An aspirational day showcasing to children (primary school aged) the many ways that engineering affects their lives and encouraging them to consider careers in engineering, whether via degree-level study or as technicians. There will be lots of interactive activities on offer in the Winter Gardens and the chance to talk to real-life engineers. This event is for families.

University College London Bloomsbury Campus - London Thursday 23rd of June
For National Women in Engineering Day, the Faculty of Engineering at University College London is inviting young people and their teachers to participate in a celebration day event on the 23rd of June from 10am to 2pm at University College London Bloomsbury Campus, Gower Street, London WC1E 6BT. The event is packed with inspiring talks, interactive sessions as well as speed-networking sessions. There will be a panel discussion with leading academics and industry experts on STEM careers and personal journeys into engineering. Participants will have an opportunity to make and design their own invention during our hands-on session working together with other young people but also with our STEM Ambassadors who will be acting as mentors.
The speed-networking session will bring 30 engineers at different stages of their career or degree from a wide range of engineering sectors in industry, academia and government to share their experiences.

This celebration day aims to encourage and motivate girls and young women to become future engineers in diverse and exciting engineering areas such as Biochemical, Chemical, Civil, Environmental, Electronic, Electrical, Mechanical, Computer Science, Management and Bioengineering.
The event is free. Places go quickly. If you would like to book your place, please email Dr Elpida Makrygianni at e.makriyannis @

University College London Bloomsbury Campus London Monday 4th of July
Following our National Women in Engineering Day celebrations we also run an annual Taster Course for Year 12 pupils with University of London 4th of July from 9.30am to 5pm at University College London Bloomsbury Campus, Gower Street, London WC1E 6BT. The day-long course includes a tour through our different departments, hands-on experience and a fun quiz at the end of the day. This course aims to encourage and motivate girls to become future engineers in diverse and exciting areas such as Biochemical, Chemical, Civil, Geomatic, Environmental, Electronic & Electrical, Mechanical, Computer Science, and Medical Physics & Bioengineering. The course programme includes a series of inspiring lectures by successful women from different sectors such as industry, academia, governmental and non-governmental sectors. In addition participants will have the opportunity to meet previous and current students and engage in practical activities and tours offered by the host engineering departments.
Subject area/s: Biochemistry,Bioengineering,Biomedical Engineering,Chemical Engineering,Chemistry,Computer Science,Electrical Engineering,Engineering,Engineering (women in),Mechanical Engineering,Medical Physics
Course Requirements: This taster course is open to year 12 female students only. Students must be studying mathematics as well as one of physics chemistry and biology at AS level (or equivalent)
For more information please visit the University of London Taster Course official website: http://tasters.gradsintocareers.co.uk/courses/details/UC1273
University of Greenwich - London Wednesday 11th May
Kent & Medway STEM and The University of Greenwich Engineering Department are organising an event to raise the profile of science and engineering to young girls and celebrate the achievements of women in engineering. The event is called NWED Support twilight Session which will be on Wednesday 11th May 2016 4pm - 6pm at the Greenwich University Medway Campus. activities include; People Like me quiz, Job Role Analysis, Female STEM Ambassadors what's my line and Keeping Doors Open Presentation.

Bournemouth & Pool College Monday & Tuesday 4th & 5th July
Year 8 students from local schools are being invited to our annual Big Bang@ Bournemouth & Poole College, on July 4th & 5th at our Poole site. Our main focus is to introduce young people to the exciting career opportunities available to them within STEM while having a fun and entertaining day we will have a range of career based, interactive and hands-on activities available. Each student will experience up to ten activity sessions with the added opportunity to talk to leading employers, careers advisers and STEM professionals throughout their visit.

Heriot Watt University Edinburgh Thursday 23rd of June
On 23rd June we will be holding an event from 11am - 3pm The event will include talks by female engineering staff of the Heriot-Watt University and a research work display by female PhD engineering students. The event is aimed at both undergraduate and Post Graduate Students of the Heriot- Watt University Edinburgh and the public, no booking is required.

QinetiQ - Portsmouth Thursday 23rd of June
An engineering challenge activity for teams of 5 year 10 girls from local schools from around the Portsmouth area, Schools will need to register a team by e-mailing cmrose@qinetiq.com. Any local (Portsmouth) female engineers who would like to assist with the day would be very welcome.

Anglian Water St Ives, Cornwall Wednesday & Thursday 23rd 24th of June
We are holding events on both 23rd and 24th June and hoping to have 100 female students joining us each day from the Secondary Schools in Huntingdonshire.
The event is being held at Burgess Hall in St. Ives and is invitation only. The students will take part in 4 activities:
STEM Activity - Paper tower challenge
Engineering challenge to build a paper tower. The tower must support a container of water.
Engineering Challenge with Alliance
This session will allow the participants to work together as engineers to construct a giant Lego building. They will work in four groups which will then come together to complete the task. There will be time at the end of the sessions for some short talks from female engineers about their job roles followed by a Q and A time
Water supply challenge
In this session the girls will play a board game in which they plan, cost and build a pipe network to supply water to different areas. The session finishes with the opportunity to test the network with running water.
Careers Session - Meet the engineers
Anglian Water and Alliance staff explaining their roles and inspire the students to become engineers. The students will circulate around in groups of 3 or 4. They will have a quiz to complete.

Womens Energy Network Norwich 20th May & 23rd of June
GIN PALACE - FRIDAY 20TH MAY!!!!
17:30-20:00
Join us at the Gin Palace in Norwich for after work drinks and networking.
You don’t have to be female and you don’t have to work in energy!!!
The more the merrier...........
Please drop us a note if you will be attending, so we know numbers: info@wenuk.com and we look forward to seeing you there!

**Supporting National Women in Engineering Day 23rd June 11-15**

National Women in Engineering day - 23 June 2016 - is a day dedicated to raising the profile and celebrating the achievements of women in engineering.

A collaborative event with an energy engineering theme in lieu of National Women in Engineering Day will take place at the John Innes Centre, Norwich Research Park from 11am - 3pm.

For the benefit of 200+ female-only students, the event will feature STEMNET contract holders Connect Education Business in partnership with WEN UK, OPITO UK, Institute of Engineering Technology (IET), the Institution of Mechanical Engineers (IMechE) plus other supporting organisations and businesses.

OPITO UK, IET and IMechE are co-sponsors with 3 female STEM speakers and a keynote speaker (hopefully MP Chloe Smith).

If you would like to support or get involved, please EMAIL us.

**Broadoak Academy, Weston-Super-Mare**

**Skirting Science** - A one day event to encourage girls to take up science - especially STEM. Interactive workshop from business and academia. This will be attended by 200 local year 9 girls.

**The Anita Borg Institute and ABI.London Wednesday 22nd of June**

The GHC/1 London is a one-day, locally organised conference modelled after ABI’s international Grace Hopper Celebration of Women in Computing (GHC). This immersive event brings together women in technology, at all career stages, and industry leading companies. It is a great opportunity to build relationships, learn, and advance careers.

The programme includes keynote speakers, panel discussions, and different themed tracks with inspirational speakers. There will be women in technical roles in industries ranging from technology, banking, academia, and consulting. They will speak about technology innovation in London, leadership, and career management from the perspective of women technologists.

By listening to women in technical industries, you will gain an insight to the recent technology trends in the city, what it takes to be a successful woman in tech, and tips and stories from women creating technologies that are changing the world.

There will be plenty of opportunities to network with other fellow women in technology.

There will be an opening reception party on the evening of the 21 June with industry sponsors and members of ABI.London! The reception will be hosted by Google at 1-13 St Giles High St, London WC2H 8AG. For more information and tickets please [click here](#).

**University of Brighton, Moulsecoomb Campus Tuesday 21st of June**

Women in Engineering: Tomorrow’s Engineers’ Network evening = In celebration of National Women in Engineering Day, STEM Sussex and the SE Tomorrow’s Engineers’ Network invite you to contribute to a Forum discussion how to address the gender balance in engineering. The event will take place from 1700-1900 on Tuesday 21 June at the University of Brighton’s Moulsecoomb Campus, BN2 4AT. Chaired by Dr John Taylor, Head of the School of Computing, Engineering and Mathematics at the University of Brighton, the evening will feature key presentations from leading professionals in the sector who will share their experiences and best practice for engaging the future STEM workforce. The event will present an opportunity to network with industry professionals, teachers and University staff. Refreshments will be provided. The event is aimed at Local industry Teachers, STEM Ambassadors, and Academic staff and the public but booking is necessary through

**Jaguar Land Rover Wolverhampton Tuesday - Wednesday 21st - 22nd June**

To celebrate National Women in Engineering Day, the Education team at Jaguar Land Rover’s Engine Manufacturing
Centre, i54, Wolverhampton, is running two one day workshops. Our Women in Engineering workshops will allow us to challenge and change perceptions of the role of women in engineering and encourage young women to consider engineering and manufacturing professions and their progression routes. The engineering sector offers a wide range of exciting careers and our sessions will explore and consider some of the job roles and opportunities, focusing on the skills and qualifications needed. Events will be led by senior female staff from within the business and students will have the opportunity to work with them to explore their roles and career paths. Through interactive activities students will look at how their own skills can be applied and developed to engineering careers and the opportunities that this will present. This event is aimed at Female School pupils year 8-13 and booking is required. For further details contact Claire Scott-Jarvis at cscottja@jaguarlandrover.com

**West Herts College - Kings Langley Campus**

STEM Activities with two female guest speakers and 6 activities which will be supported by female students and staff. This event is not open to the public.

**PROCAT**

PROCAT are a sponsor of National Women in Engineering Day. We invite year 10 students to visit our college campus and find out more about careers in engineering. There will be a variety of hands on activities, time to chat with female engineering apprentices, as well as presentations from female engineers. We are inviting you to send fifteen Year 10 girls to attend this event for National Women in Engineering Day on either Tuesday 21st June or Thursday 23rd June from 1.30pm to 4.30pm. This event is not open to the public, booking is required.

**Yeovil College Thursday 23rd of June**

The BIGGEST NWED event in the South West As part of National Women in Engineering Day, Yeovil College are running exploratory sessions for girls and young ladies to come and experience some hands-on engineering as well as discovering what life is like as a woman engineer. There will be the opportunity to have informal discussions with women who have chosen engineering as their career path. The sessions will last approximately 2 hours and there will be no oily rags or grease involved! This event is being supported by women engineers from Thales, Honeywell, Western Power, Royal Navy to name but a few. Please call Alex Keyworth-Wright to book your slot on 01935 845516

**Christ's College Guildford**

. Carousel of women from different fields of engineering speaking to girls about study & careers. This event is not open to the public.

**Science and Technology Facilities Council**

**Big Bang @ RAL Key Stage 3 - STFC** will be working with Science Oxford to run a Big Bang at RAL event for Years 7 and 8 - including a fantastic demonstration-filled show and hands-on challenges and activities. This is a chance to bring pupils to a working laboratory and meet the scientists and engineers who work here. Booking is made through the Eventbrite website, however all the places have been taken. In some circumstances schools drop out and places come available. If you are interested you can go onto a waiting list.

**Institute of Refrigeration Thursday 23rd of June**

Launch of Women in Refrigeration, Air Conditioning and Heatpump Network.

Thu 23rd Jun 2016 10:00 - A webinar event, the launch of the network with talks on career opportunites UK and globally from this sector. This is open to the public who have an interest in careers in refrigeration and air
conditioning engineering.”
and air conditioning engineering. Book online [here](#).

**Equate Scotland Thursday 23rd of June**

Celebrate National Women in Engineering Day with our evening networking event, ‘Be Inspiring, Be Inspired’

Thursday 23 June 2016, 7-9pm

Registration from 6.30pm

IET Glasgow: Teacher Building, 14 St Enoch Square, Glasgow, G1 4DB

To mark this year’s National Women in Engineering Day, Equate Scotland is once again joining forces with WES Scotland and hosting an evening networking event in Glasgow. ‘Be Inspiring, Be Inspired’ will give you the chance to hear from a fabulous panel of invited speakers, before networking with like-minded people over nibbles and a glass of wine.

Growing the number of women studying and working in engineering is a complex challenge! To make meaningful and sustainable change, we all need to work together – engineers, educators, employers and policy makers. You’ll hear first-hand from a panel of top professionals, keen to share their expertise and tell you about the inspirational work they’re doing to support women in engineering:

Jillian Thomas, Senior Firmware Engineer at Finmeccanica Airborne and Space Systems Division, will share her experiences of being a woman engineer and what she’s doing to inspire the next generation.

Joan Stuart will describe the forward-thinking work that Scottish Power is doing to support women in engineering, and how it helped them win the award for Best Large Private Sector employer at the 2016 ‘Scottish Top Employers for Working Families’ awards.

Douglas Morrison will explain the ground-breaking work that City of Glasgow College is doing to build the pipeline of women in engineering, and the very positive impact it is already having.

So, if you’re a woman working in or studying engineering – or an employer, educator or policy maker who supports the development of female engineers – please do [register here](#) to come along. And be sure to tell your friends and colleagues!

**Institution of Mechanical Engineers Thursday 23rd of June**

If you have ever wondered how that incredible equipment is designed, what it would be like to work in the sports technology industry or you’re just an avid sports fan then why not attend, or register for the Webinar, for the IMechE’s [National Women in Engineering Event](#) in London on Thursday 23rd June 2016.

The Institution of Mechanical Engineers is proud to welcome a host of sports engineering professionals including engineers, students and athletes to celebrate National Women in Engineering Day. At this event you will be able to share experiences, make new contacts and hear about the wide range of career paths the sport engineering industry has to offer.

The evening will begin with presentations from three of our guests, looking at sports technology from the point of view of the designer and user.

Then ISportsconnect TV host Rebecca Hopkins, Managing Director of ENS PR Ltd and the Sports Technology Awards, will host the panel of sports technology professionals asking them about their greatest engineering challenges and achievements and what the future holds for sports and engineering. To book click [here](#).

**Manchester Metropolitan University**

**The University of Central Lancashire Saturday 4th of June**

The University of Central Lancashire will be running a ‘Talk to an Engineer’ event in the Harris Museum, Preston.
The event will be running between 10.30am-3.00pm on Saturday 4 June and is a chance to engage with a family audience about your area of research or work. Engineers will be situated in different locations across the museum and visitors will need to find the engineers and ask them what their job is. For every Engineer a visitor speaks with, they will get a stamp and when they have collected enough stamps they will win a prize. We will also have a 3D printing hub at the event where people can have a go at using CAD and 3D printing.

For Engineers who would like to get involved please contact me (egranger@uclan.ac.uk). We currently don’t have any female Engineers involved so we’d especially welcome female volunteers. We’d also welcome Engineers from further afield – I just put North West in the title to highlight the location of the event. The event is part of a public engagement project funded by the Royal Academy of Engineering Ingenious scheme.

Middlesbrough College STEM Centre Thursday 23rd of June

Middlesbrough College STEM Centre will be hosting a Women in Engineering Day on the 23rd June (9.30-2.30pm) in our new £20 million STEM Centre. Year 9 and 10 female students will be able to take part in a range of interactive workshops and talks organised by a range of external organisations. There will be a keynote speech at the beginning of the day to highlight the routes into engineering and will allow females to learn more about the opportunities available to them within engineering.

Royal Air Force

In 2015, the Royal Air Force in conjunction with Sheffield Hallam University provided 70 Year 9 Girls with a dynamic STEM Day with varying engineering tasks in response to a natural disaster. In 2016, the Royal Air Force is back and is trebling its events for NWED16. Our events are as follows -

Sheffield Hallam University – In partnership with Sheffield Hallam University we will again be inviting up to 100 Year 9 girls from local schools to complete a number of engineering tasks in response to a natural disaster.

Didcot School for Girls – In partnership with the Smallpeice Trust we will be providing a STEM Day for up to 60 Year 9 girls. The students will complete the Royal Air Force Glider project where they will have to resource, build, test and sell their gliders to the Royal Air Force.

East Manchester Academy – In partnership with the EDT, we will be providing a STEM Day for up to 120 Year 9 girls who will complete engineering tasks such as building a helipad, vehicles, bridges and culminating in an ariel drop to deliver vital supplies following a natural disaster all on the back drop of the Royal Air Force.

ITS group

The ITS (UK) Women in ITS group is holding an event on Connected and Autonomous Vehicles to mark NWED, hosted by Transport for London. There are many CAV events but at this one all the speakers are women - a world first, we believe.

See the Women in ITS Interest Group page in the Members Only area of this site, or contact mailbox @its-uk.org.uk

Wiltshire College Thursday 23rd of June

We are holding a ‘coffee morning’ on 23rd June - National Women in Engineering Day here at the new location of the 3D Centre.

I’d like to invite as many women engineers and women networking groups into the
centre to show we can support development of products either by using our product designer to carry out the work, or members using our workstations to design and model themselves. We also have 3D printers at our disposal and a FARO Arm. Our website is [http://www.wilts3dcentre.org/about-us/](http://www.wilts3dcentre.org/about-us/)

**Imagineering 1st -4th of June**  
**Institution of Civil Engineers/ Costain/Vinci Joint Venture – Tuesday 21st of June**

Three speakers, Dr Jarmila Davies, Helen Randell and Carli van Niekerk, will talk about their experiences as Civil Engineers, with reference to specific projects and their experiences as women in the Civil Engineering profession. **Dr Jarmila Davies’** talk will be centered around her description of challenges and opportunities she encountered during her versatile career in academia and the civil service, and in her engagement with various agencies dealing with equal opportunities and promotion of STEM careers to the general public. She will talk about people who influenced her career choice and who had a lasting impact on her professional development. She will give several case examples of her work as a consultant and expert witness.  
[Read her full bio](#)

**Carli van Niekerk** will talk about her work with Thames Water on surface water management in order to boost sewer resilience. By returning sewers to their intended purpose of draining wastewater, the capacity of the sewer network will be improved to cope as the population grows, our towns and cities become more urbanised and our climate changes.  
[Read her full bio](#)

**Helen Randell** will talk about her experiences as a Civil Engineer, referencing some of the projects she has worked on and how she has found being a woman in engineering. She will also talk about promoting women into engineering through schools, encouraging female engineers to stay in the profession and why it is so important to aim towards membership or chartership of a professional institution.  
[Read her full bio](#)

To book your place please click [here](#)

If you’re not already an ICE member, you can register to receive updates on our latest events. If you experience any issues, please contact the event administrator: felicity.white@ice.org.uk.

**EDT – Engineering Development Trust**  
**Various dates**

- **7th June** - Go4SET Celebration and Assessment Day Sheffield Hallam University
- **9th June** - Go4SET Celebration and Assessment Day Sci Tech Daresbury
- **14th June** - Go4SET Celebration and Assessment Day Newcastle University
- **16th June** - Go4SET Celebration and Assessment Day University of Manchester
- **4th July** - Go4SET Celebration and Assessment Day Seavision at Furness College

**House of Commons Reception- Jeremy Corbyn 13th July**

We want to set a record – for the number of women engineers in Parliament. I, along with my colleague Chi Onwurah MP, would like to welcome women engineers to a reception on 13th July 2016 in Parliament to celebrate the contribution that women make to engineering. I shall also be inviting other MPs to informally meet guests, hear their stories, and learn about how we can encourage more women into the profession. Light refreshments will be provided and tours of the Palace of Westminster will also be available.

Chi Onwurah is a Chartered Electrical Engineer herself and she is therefore well aware of just how important it is
that the realm of engineering better reflects our society.
For that evening at least, women engineers will not be in a minority!
This event is not open to the public

**A European Strategy for Gender Equality: Thon Hotel Brussels City Centre, Brussels -**
**Wednesday 22nd of June**

Gender equality is a fundamental right recognised by the Treaty of Rome in 1957 as well as by the EU Charter of
Fundamental Rights. The promotion of gender equality is therefore not only essential from a human rights
perspective, but also makes sense from an economic viewpoint. It means equal access to resources, as well as
empowerment and visibility of both women and men in all spheres of public and private life.

This timely symposium provides an invaluable opportunity to discuss the latest developments in combating gender-
based discrimination at European level. The symposium will explore how social, cultural and political obstacles can
be overcome in order to implement innovative policies that will put an end to gender discrimination in the
workplace and in society. Public Policy Exchange welcomes the participation of all key partners, responsible
authorities and stakeholders. The Symposium will support the exchange of ideas and encourage delegates to engage
in thought-provoking topical debate.

**Delegates will:**

- Share comparative knowledge on gender-based discrimination, violence and harassment by raising
  awareness of current challenges in Europe
- Explore innovative solutions to fight the causes of gender inequalities at work and beyond
- Promote measures to enhance the potential of women entrepreneurs

For further details, please refer to the enclosed event brochure. Do feel free to circulate this information to relevant
colleagues within your organisation.

**To ensure your organisation is represented**, please [book online](#) or complete and return the attached registration
form at your earliest convenience in order to secure your delegate place(s).

**P&G - Seaton Delaval Plant Thursday 23rd of June**

We have a quarterly meeting of our Women’s Network (‘WiSe’ – Women in Seaton) planned over the lunchtime
hour from 11.45 until 13.00pm. We expect approx 30 female attendees. Alongside a buffet lunch, the current plan is:

- Starter activity: quiz on famous women engineers.
- Speaker’s Introduction: introduce yourself and your career so far.
- Main focus: Invite you to speak about the Women’s Engineering Society: its’ aims, work the society does,
  how to be a member, opportunities for our female engineers/employees on site to get involved. (In
  particular, the Women’s Network has expressed an interest in inspiring girls in local area to take STEM
  subjects so if there are any ways of supporting this via WES, that would be very interesting to hear about).
  Allow time for Q&A from the audience.
- Follow-up: Provide a tour of our site (if you would like this) either before or after the lunch event.
- A Why join WES presentation by Shiva Dowlatshahi

**Wiltshire 3D Enterprise Centre - Thursday 23rd of June**

I’d like to invite as many women engineers and women networking groups into the centre to show we can support
development of products either by using our product designer to carry out the work, or members using our
workstations to design and model themselves. We also have 3D printers at our disposal and a FARO Arm. Our
Schneider Electric in Plymouth Wednesday 22nd of June

Experience Product Design - A full day packed with presentations, factory tour and design challenge! this event is aimed at year 11 and lower sixth form students, this event is for local schools by invitation only. If your a local school and want to attend please contact Helen Phillips or Sioned Owen on 01752 724233 or 01752724319.

Loughborough University Wednesday 22nd of June

Inspiring Minds: Science, Technology, Engineering & Maths - This event is ideal for year 12 pupils that are considering studying science or engineering at degree level. The taster day will include workshops and lectures in a range of STEM subjects. Pupils will also have the chance to learn about University life through a number of optional sessions. Student mentors will be with pupils throughout the day in order to enhance their experience. Link to event [here](#). To register your interest for this event, please email e.bagley@lboro.ac.uk

Also to coordinate with our open days we will have a stand for WES promoting women in engineering degree programmes. This aimed is to potential university applicants 16-18 year olds and open to the public.

Step Up, No Excuses - Women in Transport - Birmingham Monday 20th of June

We know it can be challenging to carve out the time to focus on yourself and even more challenging to start mapping out steps to get yourself that next job - especially if you are trying to do it alone. So we are re-running our “Step Up – No Excuses” workshop session, designed to help you to take control of your own career

This is an interactive facilitated session designed to get you thinking about your skills, experience and reputation management.

What a previous delegate said about the event

‘I wasn’t going to apply for promotion but after attending the session, I decided I would try. To my amazement, I got the job! Thank you for the inspiration – it really made a difference’

In addition, several attendees shared with us how this workshop spurred them on to start managing their career properly.

This event is for women at ALL levels, the last time we ran this workshop, we ran out of places fairly quickly because of early bookings. So don’t miss out and reserve your place now

Light refreshments will be provided.

The event location is Rider Levett Bucknall - 15 Colmore Row, Birmingham, B3 2BH

This event is kindly sponsored by Rider Levett Bucknall

Please click [here](#) for your FREE ticket.

Kaur Values Associates - Free Coaching for Women in Engineering 1st June - 30th June

Facts:

- Only 9% of the UK engineering workforce is female
- Only 6% of registered engineers and technicians (i.e. CEng, IEng, EngTech) are women
- The UK has the lowest percentage of female engineering professionals in Europe

While we work with schools and colleges to encourage more girls to pursue engineering, we also need more visible role models to increase the number of women who will consider a career in engineering.

Throughout June, as part of National Women in Engineering day, we are offering free coaching consultations to ensure your career is on track. We need you to succeed.

Book your no obligation, free consultation by emailing [info@kaurvalues.com](mailto:info@kaurvalues.com) and for more information please click [here](#).
Kaur Values Associates - Beyond WISE Thursday 30th of June
At the Beyond WISE event, we share postgraduate research and industry evidence on how pay inequality, promotion blockages, and lack of external opportunities are experienced. Armed with this information, why a different approach is needed to have a greater impact on recruiting and retaining a diverse workforce. This event is for both men and women who are passionate about addressing fairness, inclusiveness and respect in the workplace and/or want to accelerate their own careers.
For your tickets and more information please click [here](#).

BBC - Women in Technology - Thursday 30th of June
The BBC is at the heart of technology: using the latest innovations to deliver outstanding online products used by millions every day. We have an inclusive culture that supports every individual to be their personal best and this is reflected in the work we do.
This free recruitment evening is inviting women to visit us at our iconic central London headquarters to take a behind the scenes look at the various software applications used by the BBC for its audiences in the UK and across the world. If this sounds interesting and you would like to learn more about working in one of our tech teams then you will not want to miss this date. You can apply for a place at this event using the email address below.
BBC Design and Engineering is the division responsible for designing, developing and running the BBC’s online services including BBC iPlayer, the Red Button and BBC websites. We also have responsibility for the creation of websites, apps and games for propositions including Sport, Children’s, News and Learning. We have development teams based across the UK, predominantly in London and Salford, and are currently recruiting for technical roles.
To help us grow our technology workforce, and due to the success of this event last summer with some attendees now working at the BBC, we are hosting it again in conjunction with #LDNTechWeek.
Join in the conversation using our hashtag #BBCDiversity

**Event Details**
- Network with other techies; Meet our hiring managers and recruiters; Learn about our latest innovations and technologies.

**Format:**
The evening will provide an introduction to BBC Design and Engineering, and will include rapid-fire presentations about a broad selection of our products, in-depth showcase talks about recent developments, a chance to visit the market-place (an exhibition area where you’ll be able to watch some demos and even ‘have-a-go’) plus the chance to meet the teams and some of our recruiters during networking drinks and nibbles.

- Hear from our digital, design and engineering staff demonstrating our cutting edge projects and products they’re working on.
- Tech exhibition showcasing the range of incredible tech used at the BBC
- Networking with BBC staff and likeminded techies
- Meet our hiring managers and recruiters to learn more about our job openings
- Find out why the BBC is an employee of choice

For more information on the criteria to apply please see [here](#).

Faculty of Technology, Design & Environment Thursday 23rd of June
On 23 June our Faculty of Technology, Design and Environment will be celebrating NWED 2016 by hosting the Oxfordshire Science and Technology Challenge Day on our Wheatley Campus. The event, which is for year 8 and 9 Oxfordshire school pupils, will be run by MCS Projects Ltd. Over 100 school pupils are expected to attend the event
which will include workshops, tours of the faculty’s technology facilities and the popular attraction Artie the humanoid robot.

**Newcastle University - Thursday 23rd of June**

We are running a Twitter campaign to celebrate National Women Engineering Day. The campaign will be based on the concept of “I’m an engineer because...” We would like as many female engineering students to take part in the campaign by downloading the NWED placard, writing down a reason and taking a photo of themselves. The photos can then be uploaded directly to the Twitter feed (#NCL_NWED2016). Alternatively, students can send their photo to sage.impact@ncl.ac.uk for us to upload on their behalf.

**Brunel Engineers - Brunel University London Thursday 23rd of June**

**Speed Networking Tea Party** The aim of this event is to bring together a panel of diverse women engineers and those interested to hear about their experiences. The invited panel from a range of engineering disciplines and sectors (industry and academia), will answer questions: about what inspires them, how they got to their current position and they may even share the secret of their success! This timed event will start promptly at 3pm. The panel will rotate amongst small groups of audience at fixed intervals. There will be time at the end of the rotations around 4:30pm to chat informally and exchange contact details. This event is aimed at students and staff at Brunel University London, especially attendees of our Student Conference on Professional Engineering Skills, for whom this session will be practice in Networking Skills!

If engineers would like to join our panel, please apply [here](#).

**IET, IMechE, ICE, IChemE, RICS and CIWEM**

**National Women in Engineering Day: The Big Discussion Thursday 23rd of June Savoy Place London**

The Institution of Mechanical Engineers (IMechE), Institution of Civil Engineers (ICE), Institution of Engineering and Technology (IET), Institution of Chemical Engineers (IChemE), Royal Institution of Chartered Surveyors (RICS) and Chartered Institution of Water and Environmental Management (CIWEM) have organised a diversity event and discussion on 23rd June to celebrate National Women in Engineering Day (NWED). The event will take place at the Turing lecture theatre at the IET Savoy Place facilities from 18:30 and will be followed by a drinks reception.

Confirmed speakers: • Moderator - Antony Oliver, Former Editor of the New Civil Engineer and Infrastructure Intelligence • Alison Baptiste, Director Strategy & Investment at Environment Agency • Dawn Bonfield, CEO WES • Sarah Haslam, Powertrain Engineering Manager at Ford Motor Company • Steve Morriss, CEO Europe, Middle East, India and Africa at AECOM This event is also supported by AECOM, Air Products, PM Group, Amec Foster & Wheeler and WSP Parsons Brinckerhoff.

This event is aimed at Professional and students from these PEIs and will be held in the Turing Lecture Theatre, IET Savoy Place.

**Wallington High School for Girls - Thursday 23rd of June**

Wallington High School will be marking this day by giving the students a quiz and another activity in tutor time that week, and the event will have three speakers.

**Oxford University - Dept of Engineering Science, Thom Building Saturday 2nd of July**

Dragonfly is a day programme for girls in year 10 who want to discover what engineering is all about. They will be designing solar cars and learning about careers in engineering. Year 10 girls are invited, to book your space please click [here](#).

**Instron Thursday 23rd of June**

We plan to host an informal coffee morning in the company restaurant, providing coffee and branded biscuits to
employees. There will be a stand set up with NWED day posters and women in engineering information, including our in house Women's Business Network newsletter etc. We plan to run a competition, with employees answering a number of multiple choice questions with regards to statistics surrounding women in engineering in the UK. This event is NOT open to the public.

**Transport for Greater Manchester @ Metrolink 15th of June**

To celebrate National Women in Engineering Day, Transport for Greater Manchester is running a one day event in conjunction with its Metrolink partners MRDL and MPT. Metrolink is the largest light rail system in the UK with 120 trams, 93 stops and 94km of track. Operations began in 1992 on the Bury – Altrincham route and were expanded to serve Eccles in 2000. The network has since trebled in size through the construction of extensions to Rochdale, Ashton Under Lyme, Didsbury and Manchester Airport. Further expansion is planned with the Trafford Park line, and the second crossing through Manchester city centre is currently under construction. The event aims to encourage young women to consider engineering as a profession within the transport, design and construction industries. The transport sector offers a wide range of exciting careers and we will explore and consider some of the job roles and opportunities, focusing on the skills and qualifications needed. The event will be led by senior female staff from within the sector and students will have the opportunity to work with them to explore their roles and career paths.

This event is aimed at Female School pupils year 8-13 by invitation only. The students will take part in the following activities: • Introduction to the Metrolink network • Women in Metrolink • Tour of the control room and observing tram maintenance in the workshop • Tour of Deansgate Castlefield stop • Site visit to St Peters Square to witness engineering in progress • 3D experience of future extensions There will be the opportunity to have informal discussions with women who have chosen engineering as their career path. This event is aimed at Female School pupils year 8-13 and is not open to the public.

**Parmiter's School - Watford - Thursday 17th November**

This event runs every two years and is an informal occasion. Students and families from Years 9 – 13 (ages 13 – 18) are able to engage first hand with representatives from different career paths and occupations to find out about the world of work and the routes and options available to them. There will be about 60 participants from a vast range of job areas and about 350 students and their parents attending the event. This is not open to the public.

**CONNECT Education & Business Norwich**

A collaborative regional event with an energy & engineering theme in lieu of National Women in Engineering Day the event will feature a collaboration between the STEM Ambassador Programme contract holders CONNECT Education Business in partnership with Women in Energy Group WEN UK, OPITO UK, the Institute of Engineering Technology (IET) and the Institution of Mechanical Engineers (IMechE) including STEM Ambassadors and other supporting organisations and businesses. For booking please contact Claire.hopkins@connecteb.co.uk This will be held at John Innes Centre Norwich Research Park, Colney Ln, Norwich NR4 7UH

**STEM Sussex / Tomorrow's Engineers Brighton - Tuesday 21st of June**

In celebration of National Women in Engineering Day, STEM Sussex and the SE Tomorrow’s Engineers’ Network invite you to contribute to a Forum discussion how to address the gender balance in engineering. The event will take place from 1700-1900 on Tuesday 21 June at the University of Brighton’s Moulsecoomb Campus, BN2 4AT. Chaired by Dr John Taylor, Head of the School of Computing, Engineering and Mathematics at the University of Brighton, the evening will feature key presentations from leading professionals in the sector who will share their experiences and best practice for engaging the future STEM workforce. The event will present an opportunity to network with industry professionals, teachers and University staff. Refreshments will be provided. To book your place please click [here](#).

**Heriot-Watt University Edinburgh Campus - Thursday 23rd of June**
To celebrate National Women in Engineering Day 2016 on Thursday 23rd June an exciting and informative morning of talks, networking opportunities with refreshments and poster competition will be held in Post Graduate Centre, Edinburgh Campus.

The event chaired by Professor Rory Duncan promises to be an interesting morning with three excellent speakers lined up;

- Judith Abolle will give you a warm welcome address.
- Professor Mercedes Maroto-Valer will share some interesting statistics with us and share some of her personal experiences.
- Dr Sila Pla Pueyo will talk of the importance of female role models for women in engineering and science and the influence that other female scientists have had in her development as a scientist.

To register for the event please go to the Eventbrite page [https://www.eventbrite.co.uk/edit?eid=25720826685](https://www.eventbrite.co.uk/edit?eid=25720826685)

A networking lunch and poster competition provides a unique opportunity for engineers to present their work, engage with fellow researchers and raise the profile of women in engineering at Heriot-Watt University.

The ‘Engineering’ poster session is sponsored by the Institute of Mechanical, Process and Energy Engineering and the School of Energy, Geoscience, Infrastructure and Society.

The prizes awarded by Dr Yuhang Chen will be;

- 1st Prize £150
- 2nd Prize £100
- 3rd Prize £50

The lunch is sponsored by EPS Career Development Committee & EGIS Athena SWAN Committee.

The Society of Women Engineers Tuesday 28th of June

The IMechE NE Young Members Panel and CIBSE NE Young Engineer’s Network Thursday
23rd of June
Leicestershire Education Business Company Various dates
Monday 20th

- Lutterworth High School - STEM Ambassador talk from Barbara Warburg, Engineer at PepsiCo, Leicester
- The Market Bosworth School – ICE talk from Molly McKenzie, ICE
- Ivanhoe College - STEM Ambassador talk from Tajinder Jagdev, Quality Assurance Director at Leicester Precision Components Ltd, Leicester

Tuesday 21st

- Brookvale High School - STEM Ambassador talk from Denise El-Rishmawy and colleagues, GE Oil & Gas, Leicester
- Hastings High School - STEM Ambassador talk and soil testing activity from Laura Westoby, Graduate Geo-Environmental Consultant, BWB Consulting Ltd

Wednesday 22nd

- Saint Martin’s Catholic School - STEM Ambassador talk from Natalie Yeadon, Project Engineer at Mars Petcare, Melton Mowbray
- Manor High School - STEM Ambassador talk from Helen Braidwood and colleagues, Graduate OHL Engineer at AMEC Group Ltd

Thursday 23rd

- Crown Hills Community College - STEM Ambassador talk from Lynne Stinson and colleagues, Civil Engineers at Leicestershire County Council

Friday 24th

- Brockington College – IoP: Science, It’s a People Thing supported by Liz Penfold, Sustainability Manager, PepsiCo, Leicester

The Institution of Engineering and Technology - Webinar
Thursday 23rd of June
The Institution of Mechanical Engineers (IMechE), Chartered Institution of Water and Environmental Management
(CIWEM), Institution of Civil Engineers (ICE), Institution of Engineering and Technology (IET), Institution of Chemical Engineers (IChemE) and Royal Institution of Charted Surveyors (RICS) are pleased to invite you to a live chat about existing jobs in engineering, facilitated by a wide range of speakers across industry, on 23rd June to celebrate National Women in Engineering Day (NWED).

NWED is a national campaign created by Women’s Engineering Society (WES) to raise the profile and celebrate the achievements of women in engineering.

**Ask and Engineer Live Webinar (targeted for students 14-16 years old):** during the webinar an open discussion between panellists will be held and videos encouraging engineering will be displayed. Some of the discussion topics are listed below:

- Why engineering? Motivations to become an engineer?
- What engineers do? What are the outcomes and benefits of engineering to society?
- Why is engineering a rewarding profession? Pros of becoming an engineer?
- Some difficulties encountered as an engineer? How they were overcome and what was the outcome?

**SPEAKERS-PANELISTS**

**Rachel Skinner (Moderator):** Rachel is a chartered civil engineer CEng with over 18 years’ experience. She is a Director within WSP|Parsons Brinckerhoff’s Development business. She is a Fellow and Trustee of the Institution of Civil Engineers and was elected Vice President and voted onto Council in 2015. Rachel is also a founding board member of the Women’s Transportation Seminar in London and Highways England’s Supplier Diversity Forum. She is committed to promote the benefits of engineering and a more diverse industry. Rachel is a mum to three young children.

**Naima Ali:** is a chemical engineer MEng and an associate member of IChemE with a 1-year experience in metals and mining industry as a Continuous Improvement engineer. Naima is currently pursuing a PhD in Chemical Engineering at Imperial College London where she looks at mathematical models to understand changes in hair structure due to exposure to different environmental conditions. Naima is an active member of Ethiopian Doctoral and Masters Association (EDMA) and helped to organise a first international conference at the United Nations Economic Commission for Africa (UN-ECA) in December 2015.

**Sonja Abhyankar:** Sonja is a civil engineer with over 5 years’ experience in the engineering sector, she holds a MEng in Civil and Structural Engineering. She currently works as a Senior Engineer in the Advanced Technology group at Arup in London. She has been finalist for the ICE James Rennie Medal 2016 and she is a STEM Ambassador.

**Olivia Perkins:** Olivia is a chartered civil engineer CEng and works as a Sub Agent in Kier Infrastructure. She has over 5 years’ experience and she is the winner of the ICE James Rennie Medal 2016 awarded to the best Chartered Professional review candidate from the previous year. Her presentation was focussed on her experiences on the Crossrail Project undertaking tenders, civils and tunnelling works. She participated in the Women in the Built Environment event at the Nottingham Trent University and promotes STEM at schools.

**Aoife Considine:** Aoife is amechanical engineer and works as graduate Mechanical Engineer at Transport for London (London Underground). She has over a year of experience and is the 2016 IMechE Speak out for Engineering London winner. She has been featured in the promotional video launching Women in Transport Campaign and she regularly attends STEM events at girls’ schools.

**Elena Gil Aunon:** Elena is a chemical engineer MEng with over 15 years’ experience in the Water and Waste Water sector. She currently works as Associate Director in the Environment and Infrastructure group at Amec FW. Elena promotes a more diverse industry as a STEM Ambassador and a member of the AMEC Foster Wheeler Diversion and Inclusion group. She has recently been interviewed as a role model for the National Women in Engineering Day in Amec FW Newsletter.

To register for this FREE event please click [here](#).
Where do you see yourself? A career in engineering could take you around the world working on exciting new projects. If you’re in Years 11 or 12 with a keen interest in science and maths, join AECOM to find out how.

In support of National Women in Engineering Day (NWED), AECOM is hosting three great events to inspire and support girls interested in STEM subjects and a potential career in engineering.

When and where
Places are available for all locations. so register your attendance at one of these highly engaging and useful events.

**Thursday 23 June (1 - 3:30pm)**
Institute of Mechanical Engineers (IMechE)
One Birdcage Walk
London SW1H 9JJ
Information [here](#)
Registration form [here](#)

**Thursday 23 June (2 - 4pm)**
AECOM House
63-77 Victoria Street
St Albans AL1 3ER
Information [here](#)
Registration form [here](#)

**Monday 27 June (2 - 4pm)**
AECOM
Sunley House
4 Bedford Park
Croydon CR0 2AP
Information [here](#)
Registration form [here](#)

The events will see around 25 girls in year 11 and 12 (16/17 years old) interested in STEM subjects be addressed by impressive women engineers and there will also be a challenging and fun bridge building exercise. For more information contact Nina.Burgher-Toney - AECOM’s Early Careers Recruitment Coordinator; Work Experience & Early Careers Recruitment Team; STEM Ambassador

**JBA Consulting Thursday 23rd of June**
JBA Consulting is delighted to be supporting National Women in Engineering Day which aims to raise the profile of women in engineering and focus on the amazing career opportunities available to girls in this existing industry. Throughout the whole of June we have fantastic women from across JBA blogging about why they chose to work in the industry.

On 23 June we are hosting an interactive event at Skipton Girls High School for GCSE and A’level students and will be showcasing the exciting work that we do including demonstration of the ForeCoast® Marine app, the most comprehensive, metocean risk management tool available.

Keep up to date on the event by visiting our Twitter and LinkedIn pages.

For more information, please visit our website: [http://www.jbaconsulting.com/blog](http://www.jbaconsulting.com/blog)

**WESBath, University of Bath Thursday 23rd of June**
WESBath are inviting Year 7 and 8 pupils to take part in interactive sessions to find out what engineering is all about. Please contact Sarah stead (s.l.stead@bath.ac.uk) or Jane Tiley j.tiley@bath.ac.uk to book places or for more information.
Amec Foster Wheeler at Kenton School - Newcastle Thursday 23rd of June
Introduction to engineering, followed by 45mins ish activity about water filtration to remove contaminants and make the water safe to drink. The water is contaminated with the "zombie virus". This has links to engineering for disaster relief. This event is not open to the public.

Amec Foster Wheeler Shrewsbury
Three different hands on engineering activities for the students to explore and discuss with an Amec Foster Wheeler representative. This is aimed to primary school children (ages 4-11).

Heriot-Watt University - Post Graduate Centre Edinburgh Campus, Edinburgh Thursday 23rd of June
An exciting and informative morning of talks, networking opportunities, poster competition all to celebrate National Women in Engineering Day 23rd June 2016. The event chaired by Professor Rory Duncan promises to be an interesting and thought provoking morning. We have three excellent speakers lined up;
• Judith Abolle will give you a warm welcome address.
• Professor Mercedes Maroto-Valer will share some interesting statistics with us and share some of her personal experiences.
• Dr Sila Pla Pueyo will talk of the importance of female role models for women in engineering and science and the influence that other female scientists have had in her development as a scientist.
A networking lunch and poster competition provides a unique opportunity for engineers to present their work, engage with fellow researchers and raise the profile of women in engineering at Heriot-Watt University.
The ‘Engineering’ poster session is sponsored by the Institute of Mechanical, Process and Energy Engineering and the School of Energy, Geoscience, Infrastructure and Society.
The prizes awarded by Dr.Yuhang Chen will be;
• 1st Prize £150
• 2nd Prize £100
• 3rd Prize £50
The lunch is sponsored by EPS Career Development Committee & EGIS Athena SWAN Committee.
This event is free to register please click here

The Institute of Materials, Minerals and Mining Networking event organised by Women in Materials
The Institute of Materials, Minerals and Mining to celebrate National Women in Engineering Day on 23 June, the IOM3 Women in Materials (WIM) group will be hosting an evening event at Warwick Manufacturing Group, University of Warwick. The event will be free to attend and features two interesting talks from women pioneering work in their fields. There will be a networking event after the lectures with refreshments provided. Thanks to Warwick Manufacturing Group for sponsorship. The speakers are; Dr Liz Miles, Coventry University Liz is Network Co-ordinator of the UNESCO UNTWIN in Humanitarian Engineering, Senior Lecturer in Humanitarian Engineering and a Policy Fellow at the Department For Education Prof Barbara Shollock, University of Warwick Barbara is Academic Director of Warwick Manufacturing Group and Professor within the Steels Processing research group. The evening will be chaired by Mike Hicks, President of IOM3. The event is at 6:00 to 6:30p.m. All are welcome - men and women; members and non-members. To sign up for a place, please email sarah.boad@iom3.org. For more information about WIM please go to the Women in Materials website.

Edinburgh Napier University Thursday 23rd of June
This year we are celebrating our current female students, staff and also our alumni in The School of Engineering and the Built Environment by profiling/interviewing just a few of our successful women and showcasing these interviews (a mixture of filmed and written) on the 23rd June on the University Intranet, by email, on all of our relevant Facebook pages, Tweeting and also showing these interviews on our Connect website (http://napierconnect.org/).

**Women in Transport London Thursday 23rd of June**

**An Insight into Cyber Security**

Come along to our breakfast session to hear Michele Hanson, Chief Information Security Officer (CISO), at Transport for London, give an insight into her role and her career in tech. She’ll also discuss how we can ensure we have a correctly skilled workforce and are attracting the right talent. Michele’s talk will be followed by audience Q+A and networking. Email WIT@tfl.gov.uk to register.

Breakfast rolls, pastries and coffee will be provided.

**Location**

Transport for London, District Room, 7th Floor, 55 Broadway, London, SW1H 0BH

**Highways England 1st of July**

Highways England’s annual conference in support of National Women in Engineering Day, organised by and aimed at Highways England supply chain companies. The theme for 2016 is "Shifting the Needle: accelerating the pace of change in attraction". Stimulating discussions and inspirational speakers including Stephen Frost of London 2012 and Tanya Joseph of Sport England will provide delegates with the information and resources to shift the needle in the attraction of women to their organisations, and legacy activities for cross-industry collaboration. This event is not open to the public.

**iDiscover - Morningside Primary School Thursday 23rd of June**

A highlight of the children’s iDiscover week will be meeting and learning from real STEM role models at a Careers Carousel. The aims of the session are to raise children’s awareness of the range of careers in the industry and to emphasise that they could do these jobs! This event is for 30 pupils and their parents.

**Faculty of Engineering/IMechE University of Leeds Thursday 23rd of June**

The event will consist of inspiring talks from some of our region’s most exciting female engineering mentors and role models, hosted in collaboration by Women at Leeds, Women Engineering Society (WES) and the North Yorkshire Young Members panel of the iMechE.

The event will be beneficial for all, students, teachers, young engineers are all welcome to what is set to be an inspiring evening of real life careers and successes of some of Yorkshire’s most prominent women engineers. This event is open to the public but booking is required please click here to book your space.

**Ford Motor Company Thursday 23rd of June**

Ford Motor Company will welcome 120 school girls aged 13-16 from 10 local schools to celebrate and acknowledge female engineers at Ford and throughout the industry. The event is designed for the girls to Unlearn how they perceive Engineering, in addition to the Engineers themselves. There will be a myriad of activities, ranging from programming a robot, a key note speech & panel discussion with our female VP of Manufacturing as well as a tour of the facilities. The aim is for the girls to leave with a refreshed sense of what it is to be an Engineer and to hopefully make it a serious consideration for their future careers. Head to the Ford UK social channels
(Facebook/Twitter/Instagram) for coverage of the event and surrounding NWED campaign. This event is not open to the public.

**Amec Foster Wheeler Shrewbury - Woodfield Infant School**  **Monday 20th of June**
Exploring the strength of a cell based structure by making a paper honeycomb. This event is aimed for Year 1 students (Ages 5-6)

**FIRSTCo. London Thursday 23rd of June**
Firstco are hosting a lunch and learn session on 23rd June at our London office for our female employees (12 out of 80) to hear from a senior consulting engineer from another organisation about her experience, her career and any challenges she has face as a women in engineering. Two of our young female engineers are also returning to their respective all-girl secondary schools in the up-coming weeks to talk about their experience as students and graduate engineers. This event is not open to the public.

**Wellesley House School**
We will be holding an event at Wellesley House school and will have approximately 60 girls attending (30 from our own school and 30 visitors from 5-6 local primary and secondary schools). The girls will be aged between 7 and 15. We will be having DT, radio and communication, ICT (microbit) and electronic science activities for the girls.

**Toney Gee and Partners LLP Thursday 23rd of June Tuesday 14th of June**
I am organising a careers event for S5/S6 pupils in East Dunbartonshire with the help of a maths teacher I have helped at STEM events before. As the schools here finish for summer break on 28th June we have decided to host our NWED 2016 event early - on June 14th - to ensure we get a good turnout and commitment from teachers. On this day we have 14 female engineers attending with careers in civil, structural, aerospace, chemical, mechanical and other disciplines. We will be carrying out practical activities as well as short presentations with the aim of inspiring the girls to consider a future in engineering. We will be using the #NWED2016 as well as company and school twitter feeds to help promote the event and are hoping for some coverage in the local press.

**National Grid - "Women in National Grid " Network Twitter Campaign Thursday 23rd of June**
To do this we are encouraging people to take part in the WES social media campaign and to send the pictures to us for collation into a National Grid story to share across our company. **We would like to capture your stories in the format of a picture of you**, holding a sign expressing your thoughts on raising awareness of women in engineering. It could range from what you’re doing in your team at work, as part of a volunteering role with Guiding, Scouts or schools, or simply a conversation you’ll have with your daughters, sons, nieces and nephews. In the end a great collage from across the buisness will be created.

**Appendix 3. Photo Gallery**

Audlem online 5 July 2016

Women in engineering

Engineering companies across Cheshire East have teamed up to get more women to take their first steps on an engineering career. Ringway Jacobs — who work with Cheshire East Council — were among the companies taking part in 'National Women in Engineering Day', which aims to help young women to develop careers through apprenticeships and graduate training programmes. Please click here for the full article. 5th July

Women in Engineering - Carbon60 July 2016

To support National Women in Engineering Day (23 June 2016), we have created an insight piece looking at the number of women in engineering and what the construction, aviation and IT industries can do to attract more women into these sectors. Please click here for the full article and free paper on "overcoming the barriers facing women in engineering"

QinetiQ Group plc 4th July

National Women in Engineering Day 2016

National Women in Engineering Day was set up in 2014 by the Women's Engineering Society (WES) on its 95th anniversary. Its aim is to open young women's eyes to the exciting opportunities that exist in a career in engineering with a view to improving diversity and filling the skills shortage that is envisaged to arise in the sector. We've supported Women in Engineering Day since it began, but this year is by far our greatest effort. With a dedicated working group focused on increasing and improving outreach with girls, today sees a number of events across our UK sites. Please click here for the full article.

Practical Action 4 July 2016

Women in Engineering Beat the Flood!!

8 schools, 90 girls, 15 volunteers from industry; loads of junk modelling material, water and a Practical Action STEM challenge ...the perfect combination for a National Women in Engineering and the Build Environment Day event at Birmingham City University. #NWED2016 Please click here for the full article.

Sunderland Echo 4 July

Girls get insight into engineering at new Sunderland bridge site

Female year nine students from Monkwearmouth Academy and The Venerable Bede Academy visited the site of the New Wear Crossing as part of National Women In Engineering Day. Please click here for the full article.

The Packet 3 July 2016
High School for Girls inspire young women to redress the gender imbalance in engineering
Creating solar energy cells from fruit, welding with chocolate and testing model boats in a swimming pool were just some of the hands-on activities on offer at a day-long event to mark National Women in Engineering Day. Please click here for the full article.

Institution of Civil Engineers 2 July
Yorkshire Schools Build Bridges for Women in Engineering
Budding female engineers from schools across Yorkshire have taken part in a day of activities to mark National Women in Engineering Day. Please click here for the full article.

Ledbury Reporter 2 July 2016
Hereford electrical technician urges more women to take up engineering roles
HEREFORD electrical technician has encouraged more women to take up engineering roles and claims the whole industry would benefit if more women were involved. Kelly Box, from Hereford, spoke out as part of National Women in Engineering Day which took place last month. Please click here for the full article.

Costain 1 July 2016
Attracting Women Into Engineering
Costain is demonstrating its commitment to diversity with a leading role in the National Women in Engineering Summit in London.
Commissioned by Highways England and organised by a Costain-led committee of supply chain sponsors, the Summit, being held today (1 July) looks at how businesses both inside and outside the engineering sector are attracting more women and aims to share best practice as well as provide ideas and tools that companies can take away and use. The 2016 theme is: ‘Shifting the Needle: Accelerating the pace of change in attraction’. In attendance are business and HR leaders from a diverse group of over 35 members of Highways England’s supply chain. Please click here for the full article.

Imperial London 1 July 2016
Faculty celebrates National Women in Engineering Day
The Faculty held an event to celebrate its female engineers and inspire prospective students as part of National Women in Engineering Day. Please click here for the full article.

Gradcracker June 2016
Spirax Sarco are proud to support National Women In Engineering Day!
Spirax Sarco supports National Women in Engineering Day because we recognise that diversity of gender, age, culture, experience and expertise serve to enhance our ability to operate effectively and ethically.
Achieving an even balance between the genders is a common challenge within the engineering sector and we are working to address this within our business through equitable employment practices as well in the community, where we encourage young people and students to consider engineering as a career. Please click here for the full article.
Women in STEM June 2016

Why women in STEM suffer from the 'Impostor Phenomenon'

Support Dr Terri Simpkin is researching the Impostor Phenomenon in STEM occupations — where capable women experience feelings of inadequacy, despite obvious suitability for their role. Please click here to view the full article.

BMT June 2016

BMT supports Women in Engineering

In celebration of the day, BMT has been interviewing women in STEM roles. We find out what inspires them, how they deal with challenges in their day-to-day roles and what made them choose their career. Please click here for the full article.

Virgin 28 June 2016

Celebrating National Women in Engineering Day

At Virgin we love celebrating our people. So when it was National Women in Engineering Day last week, we had to celebrate the brilliant things that some Virgin businesses are doing to encourage women in engineering. Please click here to view the full article.

**Cundall 23 June 2016**

**What’s gender got to do with it?**

Today, 23rd June, marks National Women in Engineering Day, a day which aims to raise the profile of women in engineering and focus on the amazing career opportunities available to females in this industry. But why do we need a day dedicated to women in engineering? The number of women in engineering in the UK stands at 9%, the lowest level in Europe*, with eight times more men than women applying for jobs within engineering**. Cundall’s intake of female graduates in 2015 stood at 27%, a statistic that may be above the country’s average but suggests that there is still plenty of work to do in promoting this industry.

---

**Network Rail 23 June 2016**

**National Women in Engineering Day: Network Rail engineers share their inspirational stories**

To celebrate this year’s National Women in Engineering Day (Thursday 23 June), four engineers tell the story of their career journeys at Network Rail. All four women are at different stages of their careers, from graduate engineer Shinjinee Pal to Network Rail’s chief engineer Jane Simpson, but they show just how varied and interesting working in the rail industry can be.

Long-term strategy needed to tackle gender imbalance in engineering

It was my mum who suggested a career in engineering to me. A family friend was an engineer and that is how we knew it was a socially useful job with plenty of opportunity. I don’t think we imagined at the time how amazing those opportunities could become, and that I would work on nationally important projects like Crossrail and HS2. Read more [here](#).

**The Online Recruitment Resource 21 June 2016**

**Engineering companies missing out on untapped potential,**

As the international community celebrates Women in Engineering Day (23 June), Jonathan Lee Recruitment, the engineering recruitment specialist, warns that if attitudes don’t change the UK will continue to lag behind Europe when it comes to attracting and retaining female talent and that this could seriously hamper growth in industries that are crying out for skilled engineers. The annual event, organised by the Women's Engineering Society, is reporting some worrying statistics; the UK has the lowest percentage of female engineering professionals in Europe, at less than 10%, compared to Latvia, Bulgaria and Cyprus who are leading the way with nearly 30%.
